Reaffirming that assistance should be based on an agreed division of responsibility among the funding organizations, under the coordination of the Government concerned, in order to integrate their response into the development needs of recipient countries,

1. Reaffirms the principle that the assistance provided by the United Nations system should be in conformity with the national objectives and priorities of the recipient countries, that the coordination of various assistance inputs at the national level is the prerogative of the Government concerned and that the overall responsibility for, and coordination of, operational activities for development of the United Nations system carried out at the country level is entrusted to the resident coordinator;

5. Reaffirms that field office activities related to public information, where in place, should follow the relevant provisions of resolutions of the General Assembly, in particular its resolution 48/44 B of 10 December 1993;

6. Also reaffirms the need to increase the number of common premises, in cooperation with host Governments, in a way that increases efficiency, through, inter alia, consolidation of administrative infrastructures of the organizations concerned, but does not increase the costs for the United Nations system or for developing countries;

7. Further reaffirms that all field offices should operate on a sound financial basis;

8. Reaffirms that all field offices are to be funded through voluntary contributions, including those from the host country, and that the United Nations regular budget is a financial source for currently mandated activities related to public information;

9. Decides to review the situation of all field offices as part of the next triennial policy review of operational activities for development within the United Nations system, through the procedures established for that purpose in its resolution 47/199;
