I. Introduction

1. The budget for the maintenance of the United Nations Peacekeeping Force in Cyprus (UNFICYP) for the period from 1 July 2006 to 30 June 2007, set out in the report of the Secretary-General of 15 December 2005 (A/60/592), amounted to \$44,954,300 gross (\$43,135,800 net), exclusive of voluntary contributions in kind in the amount of \$1,439,000. It provided for 860 military contingent personnel, 69 United Nations police officers, 42 international staff and 111 national staff. The Advisory Committee on Administrative and Budgetary Questions, in paragraph 38 of its report on the financing of UNFICYP dated 19 April 2006 (A/60/785), recommended that the General Assembly appropriate \$44,954,300 gross for the maintenance of UNFICYP for that period.

2. The General Assembly, by its resolution 60/270, appropriated an amount of \$44,831,400 gross (\$43,012,900 net) for the maintenance of the Force for 2006/07. The appropriated amount included voluntary contributions from the Government of Cyprus in the amount of \$14,915,300, equivalent to one third of the net cost of UNFICYP, and \$6.5 million from the Government of Greece. An amount of \$23,416,100 gross (\$21,597,600 net) was assessed on Member States for the maintenance of UNFICYP for that period.

II. Mandate performance

3. The mandate of UNFICYP was established by the Security Council in its resolution 186 (1964) and extended in subsequent resolutions of the Council. The mandate for the performance period was provided by the Council in its resolutions 1687 (2006) and 1728 (2006).

4. UNFICYP is mandated to help the Security Council achieve an overall objective, namely, to ensure peace and security in Cyprus and the return to normal conditions.

5. Within this overall objective, UNFICYP has, during the reporting period, contributed to a number of accomplishments by delivering related key outputs, shown in the frameworks below for the political and civil affairs, military, United Nations police and support components.

6. The present report assesses actual performance against the planned results-based budgeting frameworks set out in the 2006/07 budget. In particular, the report compares the actual indicators of achievement, that is, the extent to which actual progress has been made during the period against the expected accomplishments, with the planned indicators of achievement, and the actually completed outputs with the planned outputs.

B. Monthly expenditure pattern

7. Higher expenditures in October 2006 were attributable to obligations raised for the reimbursement of troop-contributing Governments for troop costs and contingent-owned equipment, as well as for the provision of rations for military personnel.

IV. Analysis of variances¹

	<i>Variance</i>	
Military contingents	(\$1 219.2)	(7.1%)

8. The additional requirements were attributable to the rotation of one contingent by commercial means owing to the unavailability of aircraft from the troop-contributing country for the rotation of its contingent through letter-of-assist arrangements.

¹ Resource variance amounts are expressed in thousands of United States dollars. Analysis is provided for variances of at least plus or minus 5 per cent or \$100,000.

	<i>Variance</i>	
United Nations police	(\$129.1)	(13.4%)

9. The additional requirements were attributable to an increase in the mission subsistence allowances from £C17 (\$35.79) to £C19 (\$41.85) per person per day effective 1 October 2006. The higher requirements were offset in part by lower actual requirements for the travel of United Nations police officers and non-utilization of provision for death and disability compensation, as no incidents of injury to the police personnel occurred during the period.

	<i>Variance</i>	
International staff	(\$213.6)	(3.6%)

10. The variance was attributable to the increase in the post adjustment multiplier effective July 2006 compared to the budgeted multiplier in effect in August 2005, as well as higher expenditures related to the separation of two international staff and mission assignment costs for nine staff.

	<i>Variance</i>	
National staff	(\$1 006.5)	(17.2%)

11. The additional requirements were attributable to two revisions of the national staff salary scale in September 2005 (increase by 2.1 per cent) and September 2006 (increase by 4.7 per cent), as well as to the 6.5 per cent appreciation of the Cyprus pound against the United States dollar (from the budgeted rate of £C0.475 to the actual average of £C0.444 during the period).

	<i>Variance</i>	
General temporary assistance	\$177.7	53.4%

12. The unspent balance was attributable mainly to the non-utilization of the approved provisions for the Conduct and Discipline Team (one P-5 and one national General Service), owing to the establishment of the Regional Conduct and Discipline Team in UNIFIL following its expansion in August 2006.

	<i>Variance</i>	
Communications	\$119.6	13.0%

13. The variance resulted from lower actual requirements for services, lower expenditures on telephone services as a result of favourable rates charged by the mobile phone service provider, as well as lower requirements for spare parts for microwave links and facsimile machines.

	<i>Variance</i>	
Information technology	\$31.4	5.4%

14. The unutilized balance was attributable to the reduced procurement of information technology equipment as well as the use, whenever feasible, of in-house resources for the maintenance and repair of equipment. The unspent amount was offset in part by additional requirements for software packages for the development of the UNFICYP website.

	<i>Variance</i>	
Other supplies, services and equipment	(\$257.2)	(59.6%)

15. The additional requirements were attributable mainly to the unforeseen expenditure related to the UNFICYP share of the financing of the Office of Internal Oversight Services Procurement Task Force established at United Nations Headquarters.

V. Actions to be taken by the General Assembly

16. The actions to be taken by the General Assembly in connection with the financing of UNFICYP are:

(a) To appropriate and assess an additional amount of \$2,516,500 for the maintenance of the Force with respect to the period from 1 July 2006 to 30 June 2007;

(b) To decide on the treatment of other income for the period ended 30 June 2007 amounting to \$1,212,700 from interest income (\$286,300), other/miscellaneous income (\$266,000) and savings on or cancellation of prior-period obligations (\$660,400).
