Note by the Secretary-General

The Secretary-General has the honour to transmit herewith to the Security Council the report of the Board of Auditors on the financial statements of the United Nations Escrow (Iraq) Account for the financial period year ended 31 December 2004.

Report of the Board of Auditors on the accounts of the United Nations Escrow (Iraq) Account established under the provisions of Security Council resolutions 986 (1995), 706 (1991), 778 (1992), 687 (1991), 1284 (1999), and 1483 (2003) for the financial period ended 31 December 2004

31 March 2005

Dear Mr. Chairman,

In accordance with financial regulation 6.5, I have the honour to submit the accounts of the United Nations Escrow Account established pursuant to Security Council resolution 986 (1995), and pursuant to Security Council resolutions 687 (1991), 706 (1991), 778 (1992), 1284 (1999), 1483 (2003) and 1546 (2004), for the 12-month period of the biennium 2004-2005 ending 31 December 2004, which I hereby approve. The financial statements have been completed and certified by the Acting Controller.

(Signed) Kofi A. **Annan**

Mr. Guillermo N. Carague
Chairman
United Nations Board of Auditors
New York

I. Report of the Board of Auditors

Executive summary

The Board of Auditors has audited the operations of the United Nations Escrow (Iraq) Account established under the provisions of Security Council resolutions relating to Iraq for the financial period ended 31 December 2004.

The Board issued an unqualified opinion on the financial statements for the United Nations Escrow (Iraq) Account for the financial period ended 31 December 2004, as reflected in chapter II.

Implementation of previous recommendations

The Board has indicated in the annex to the present chapter, the summary status of implementation of recommendations for the period 1 January to 31 December 2003. The two recommendations were under implementation.

Financial overview for the financial period ended 31 December 2004

Shortfall of income over expenditure for the period registered at \$245.68 million, after deducting the total expenditure and prior-period adjustments of \$368.84 million from total income, comprising interest and miscellaneous, of \$123.16 million. Total expenditure has decreased by \$923.32 from \$9.692 billion in 2003 to \$368.84 million in 2004. Total assets posted a decrease of \$15.28 million, from \$18.84 million in 2003 to \$3.56 million in 2004, which is attributable mainly to the continued settlement of unliquidated obligations and transfers to the Development Fund for Iraq.

The Board reviewed five major accounts in the financial statements, inter alia, (i) revenues; (ii) expenditures on humanitarian supplies and related expenses; (iii) assets, the bulk of which was in cash and investments; (iv) liabilities, which are essentially unliquidated obligations for approved/amended contracts; and (v) reserves and fund balances as at 31 December 2004. In line with this review, the Board noted the following:

(a) A total of 202 letters of credit amounting to \$248.68 million, which expired on 1 October 2004 and earlier, were still included in the Banque Nationale de Paris (BNP) liability report;

(b) The balance of unliquidated obligations as at 31 December 2004 disclosed a difference of \$35 million with the BNP Paribas liability report;

(c) Letters of credit amounting to \$31.1 million, which expired in 2004 owing to failure of suppliers to deliver, were cancelled and the related adjustments in IMIS were posted only during January to March 2005;

(d) The currency amounts of obligations raised/closed in the financial period 2004 were translated, using exchange rates other than the 31 December 2004 rates;

(e) The shipment and validity dates of certain letters of credit were repeatedly extended since the contracts were amended under Security Council resolution 1483 (2003);

(f) The payable to the Government of Germany amounting to \$0.58 million remained outstanding since 1992 owing to differing opinion/interpretation on whether Germany could be reimbursed under paragraph 8 (e) of Security Council resolution 986 (1995).

The Board made recommendations for the Administration to: (a) continue to coordinate closely with the Banque Nationale de Paris Paribas on the timely and practicable cancellation of letters of credit, which had expired, particularly in respect of those without valid claims; (b) continue to reconcile the balances of unliquidated obligations against the Banque Nationale de Paris Paribas liability report on a per obligation basis and reflect the adjustment in the financial period to which it relates, whenever practicable; (c) ensure that all transactions pertaining to a particular period are taken up during the same period; (d) coordinate with the IMIS team regarding the currency exchange rates that would be used in the translation of balances of obligations raised or closed as at cut-off date; (e) continue to review the obligations related to amended contracts and effect the adjustments in IMIS; (f) take steps, in conjunction with the United Nations Monitoring, Verification and Inspection Commission (UNMOVIC), to determine whether the payable to the Government of Germany represents a valid claim against the funds of the programme in order to clear the balance.

A list of the Board's main recommendations appears in paragraph 20 of the present report.

A. Introduction

1. The Board of Auditors has audited the financial statements of the United Nations Escrow (Iraq) Account established under the provisions of Security Council resolutions relating to Iraq, in accordance with Security Council resolutions 986 (1995), 1483 (2003) and 1546 (2004), and pursuant to Security Council resolutions 687 (1991), 706 (1991), 778 (1992) and 1284 (1999); and the memorandum of understanding signed in May 1996 between the Secretariat of the United Nations and the Government of Iraq. The audit was conducted in conformity with article VII of the Financial Regulations and Rules and the annex thereto, and the common auditing standards of the Panel of External Auditors of the United Nations, the specialized agencies and the International Atomic Energy Agency and the International Standards on Auditing. Those standards require that the Board plan and perform the audit to obtain reasonable assurance as to whether the financial statements are free of material misstatement. The report is addressed to the Secretary-General, who is invited to forward it to the President of the Security Council.

2. The audit was conducted primarily to enable the Board to form an opinion as to whether the expenditures and unliquidated obligations recorded in the financial statements for the financial period from 1 January to 31 December 2004 had been incurred for the purposes approved by the Committee established under Security Council resolution 661 (1990) and in pursuance of the provisions of Security Council resolution 1483 (2003), whether income and expenditures, cash and investments, advances and other receivable/payable accounts were properly classified and recorded in accordance with the Financial Regulations and Rules, and whether the financial statements of the United Nations Escrow (Iraq) Account established under the provisions of the Security Council resolutions relating to Iraq presented fairly the financial position as at 31 December 2004.

3. The audit included a general review of the financial systems and tests of the adequacy of the existing controls over cash/investments and related income, payments of expenditures, advances to agencies and unliquidated obligations to obtain assurance that payments for expenditures were made for valid obligations, the recorded obligations represent valid claims and transfers of funds were made in pursuance of the provisions of resolution 1483 (2003). Likewise, the Board performed a test examination of accounting records and other supporting evidence, to the extent the Board considered necessary, to form an opinion on the financial statements.

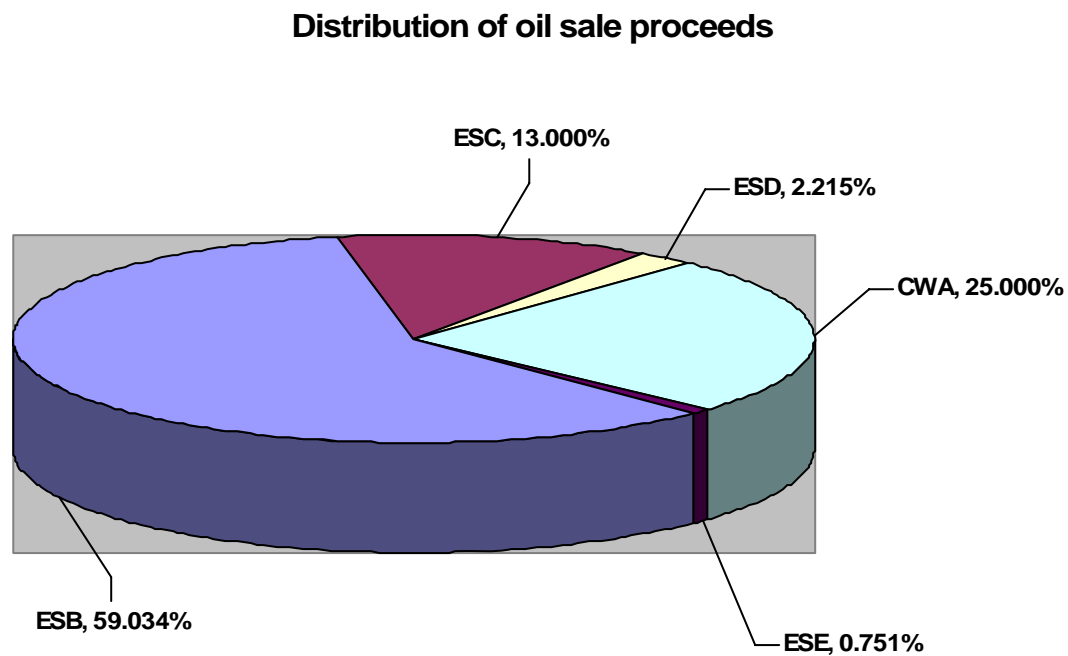

1. Background

4. In August 1990, the Security Council adopted resolution 661 (1990) by which imposed comprehensive sanctions on Iraq following that country's invasion of Kuwait. Concern over the humanitarian situation in Iraq, the United Nations proposed measures to enable Iraq to sell limited quantities of oil to meet its people's needs under resolutions 706 (1991) and 712 (1991) but were declined by the Government of Iraq.

5. In its resolution 986 (1995), the Security Council authorized Member States, for a period of 180 days, to permit the import of petroleum and petroleum products originating in Iraq sufficient to produce a sum not exceeding a total of \$1 billion

every 90 days. The Oil-for-Food Programme began in December 1996 after the United Nations and the Government of Iraq agreed on the details of the implementation of resolution 986 (1995) through a memorandum of understanding of 20 May 1996. The funds thus generated through oil sales were to be credited to an escrow account, called the Iraq Account, established by the Secretary-General and used to meet the humanitarian needs of the Iraqi population as well as for other purposes specified in resolution 986 (1995), including financing of export of humanitarian supplies to Iraq particularly in the central and southern governorates (Fund ESB), complementing the distribution by the Government of Iraq of such supplies to the three northern Governorates of Arbil, Dihouk and Suleimaniyeh (Fund ESC), transferring the costs for the settlement of claims against damages and losses as a result of invasion and occupation of Kuwait by the Government of Iraq (Fund CWA), as well as for the monitoring, verification and inspection of weapons of mass destruction (Fund ESE) and meeting the programme's operational and administrative costs, including the cost of inspection agents (Fund ESD). The percentages of allocation are shown in the figure below:

Figure
Percentile distribution of the proceeds of oil sales pursuant to Security Council resolution 1330 (2000)

6. The Security Council in its resolution 986 (1995) also permitted the sale of additional quantities of oil by Iraq. It was envisaged that the revenue generated should be sufficient, after crediting 30 per cent thereof to the United Nations Compensation Commission (Fund CWA), to defray the cost of transportation of oil through the Kirkuk-Yumurtalik pipeline across the border between Iraq and Turkey (for shipment from the port of Ceyhan in Turkey) and accounted for in a separate fund, Fund ESF. As at 31 December 2003, Fund ESF had zero balance after settlement of the last invoice for the pipeline charges in June 2003. By virtue of Security Council resolution 1330 (2000), the share of the United Nations Compensation Commission was reduced to 25 per cent. Further, as provided under paragraph 21 of Security Council resolution 1483 (2003), 5 per cent of the proceeds of all sales of petroleum, petroleum products and natural gas from Iraq following the date of the adoption of the resolution would be deposited into the Compensation Fund.

7. In June 1998, under Security Council resolution 1153 (1998), the level of oil exports under the programme was raised to \$5.26 billion for every six months. By virtue of Security Council resolution 1284 (1999), the ceiling of Iraqi oil exports was completely removed by the Security Council.

8. Owing to the outbreak of war in Iraq on 19 March 2003, the last oil shipment under the programme was made on 20 March 2003.

9. That situation in Iraq and the then ongoing investigation by the Independent Inquiry Committee on the United Nations Escrow (Iraq) Account contributed to the delay in the preparation of the present report as the Board's audit was rescheduled from sometime in March-April 2005 to May-June 2005. Pending the publication of the last report by the Independent Inquiry Committee, the Board has issued the management letter dated 7 June 2005 to the Controller covering the results of the audit for 2004.

2. Distribution of humanitarian supplies

10. Pursuant to the memorandum of understanding entered into on 20 May 1996 by and between the United Nations and the Government of Iraq, the latter was responsible for the procurement of food and medicines for distribution to the three northern governorates through concerned United Nations entities. The United Nations Office of the Iraq Programme, acting in coordination with the United Nations Office of the Humanitarian Coordinator in Iraq as its field office, was the focal point for tracking and coordinating all activities regarding the preparation and approval of the distribution plan; evaluation, processing, circulation and approval of contract applications; authentication of the delivery of goods and quality checks by the independent inspection agents; and distribution of supplies.

11. The programme was extended for 180 days from 5 December to 3 June 2003 by Security Council resolution 1447 (2002). The Council further adopted resolution 1472 (2003) to effect, on an interim and exceptional basis, technical and temporary adjustments to the Oil-for-Food Programme; and granted the Secretary-General authority for a period of 45 days to undertake measures to facilitate the delivery of humanitarian supplies and equipment. By its resolution 1476 (2003), the Security Council decided that the provisions contained in paragraph 4 of resolution 1472 (2003) would remain in force until 3 June 2003. On 22 May 2003, by resolution 1483 (2003), the Security Council lifted the civilian sanctions against Iraq. In the

same resolution, the Council ordered the termination of the Oil-for-Food Programme on 21 November 2003 and authorized the transfer of responsibility for the administration of its remaining activities to the Coalition Provisional Authority in Iraq.

3. Prioritization of contracts pursuant to Security Council resolution 1483 (2003)

12. In accordance with paragraph 16 of resolution 1483 (2003), the now-defunct United Nations Office of the Iraq Programme, in coordination with the Coalition Provisional Authority in Iraq and the relevant Iraqi authorities reviewed the relative utility of each contract still in the pipeline, and in exceptional cases included also those unfunded contracts. As at 21 November 2003, the United Nations Office of the Iraq Programme confirmed 3,060 contracts valued at about \$6.210 billion as shown in table 1. The validity of the letters of credit issued and outstanding was extended or new letters of credit issued subject to the amended agreements between/among the suppliers, participating United Nations funds and programmes, and specialized agencies. The expiry dates of the letters of credit extend up to 2007.

Table 1
Results of prioritization of contracts pursuant to Security Council resolution 1483 (2003)

<i>Category</i>	<i>Number of contracts</i>	<i>Value (billions of United States dollars)</i>
Approved and funded contracts prioritized and amended by the United Nations	2 394	5.004
Previously non-funded contracts prioritized and amended by the United Nations	415	0.794
Approved and funded contracts that could not be amended by the United Nations by the deadline of 21 November 2003 and transferred "alive" to the Coalition Provisional Authority in Iraq for further processing	251	0.412
Total	3 060	6.210

13. The prioritization exercise also placed into separate categories some 728 previously approved and funded contracts that were prioritized but subsequently removed from the list of contracts amendable by the participating United Nations entities; 762 approved and funded contracts but not prioritized (contracts with "questionable utility"); and 709 approved and funded contracts with relatively small outstanding deliverables and regarding which suppliers appeared not interested in fulfilling its contractual obligation. The validity of the covering letters of credit of these contracts would be allowed to expire but the decision to terminate the contracts would be held in abeyance until after an internationally recognized representative from the Government of Iraq would make its own determination as to the necessity of enforcing such contracts. The Treasury informed the Board that it had no knowledge of the action taken by the Government of Iraq on the non-prioritized contracts as the Government of Iraq representative did not communicate the status to the Security Council.

4. Oil sales

14. Iraq sold some 3,427 million barrels of oil to 248 companies from 1996 to 2003, aggregating \$64.2 billion and covering 13 phases (table 2). Buyer-companies were selected and contracted directly by the Iraqi State Oil Marketing Organization. Contracts entered into by and between the Iraqi State Oil Marketing Organization and the buyers were the subject of review by the oil overseers duly appointed by the Secretary-General focusing on the pricing mechanism.

Table 2
Total oil sales

<i>Phase</i>	<i>Volume of oil (million of barrels)</i>	<i>Value of oil exported (millions of United States dollars)</i>
I	120.0	2 150
II	127.0	2 125
III	182.0	2 085
IV	308.0	3 027
V	360.8	3 947
VI	389.6	7 402
VII	343.4	8 302
VIII	375.7	9 564
IX	293.0	5 638
X	300.2	5 350
XI	225.9	4 589
XII	232.7	5 639
XIII	169.6	4 413
Total	3 427.9	64 231

5. Expenditures for humanitarian supplies and oil spares

15. The programme was expanded by the Security Council beyond its initial emphasis on food and medicines to include infrastructure rehabilitation and other sectors. Cumulative expenditures on humanitarian supplies and oil spares covering 13 phases reached \$43.84 billion as at 31 December 2004 (see table 3).

Table 3
Expenditures for humanitarian supplies and oil spares
(Millions of United States dollars)

<i>Biennium</i>	<i>Humanitarian supplies</i>	<i>Oil spares</i>	<i>Total</i>
1996-1997	2 402	—	2 402
1998-1999	6 026	345	6 371
2000-2001	19 989	2 369	22 358

<i>Biennium</i>	<i>Humanitarian supplies</i>	<i>Oil spares</i>	<i>Total</i>
2002-2003	11 120	1 286	12 406
2004-2005 (ended 31 December 2004)	219	83	302
Total	39 756	4 083	43 839

6. Monitoring of weapons of mass destruction

16. The United Nations Monitoring, Verification and Inspection Commission (UNMOVIC) was established by the Security Council in its resolution 1284 (1999) to undertake the responsibilities with regard to, inter alia, verification of compliance by Iraq on resolutions pertaining to weapons of mass destruction. In view of the termination of the Oil-for-Food Programme, the Security Council in its resolution 1483 (2003) underlined its intention to revisit the mandates of UNMOVIC. Such intention was reaffirmed in its resolution 1546 (2004).

17. The present report covers matters that, in the opinion of the Board, should be brought to the attention of the Secretary-General and the Security Council. The Board discussed its observations and conclusions with the Administration, whose views, where appropriate, have been reflected in the report.

18. The Board's recommendations are reported in paragraph 20. The detailed findings are discussed in paragraphs 24 to 70.

7. Previous recommendations not fully implemented

19. The Board reviewed the measures taken by the Administration to implement the recommendations made in its previous reports. The two recommendations contained in the report of the Board of Auditors on the audit of the Escrow (Iraq) Accounts for the period ended 31 December 2003 were under implementation. Details of the action taken and the comments of the Board are included in the relevant discussion within the present report.

8. Main recommendations

20. The Board's main recommendations are that the Administration:

(a) **Continue to closely coordinate with BNP Paribas on the timely and practicable cancellation of letters of credit, which had expired, particularly in respect of those without valid claims (para. 33);**

(b) **Continue to reconcile the balances of unliquidated obligations against the BNP Paribas liability report on a per-obligation basis and reflect the adjustment in the financial period to which it relates (para. 40);**

(c) **Ensure that all transactions pertaining to a particular period are accurately recorded during the same period (para. 47);**

(d) **Coordinate with the IMIS Team regarding the currency exchange rates that would be used in the conversion of balances of obligations raised or closed as at financial statement date (para. 52);**

(e) **Continue to review the obligations related to amended contracts and effect the adjustments in IMIS in a timely manner (para. 56);**

(f) **Resolve, in conjunction with UNMOVIC, whether the payable to the Government of Germany still represents a valid claim against the funds of the programme in order to clear the balance (para. 60).**

B. Financial issues

1. Financial profile

21. The Board, as part of the financial review, analysed five major accounts of the financial statements; revenues; expenditures on humanitarian supplies and related expenses; assets, the bulk of which was in cash and investments; liabilities which are essentially unliquidated obligations for approved/amended contracts; and reserves and fund balances as at 31 December 2004.

22. Compared with the immediately preceding year, total income, the bulk of which came from oil sales, decreased by 53 per cent in 2003 and 97 per cent in 2004 owing to the interruption of oil sales on 20 March 2003. In 2004, interest income comprised 93 per cent of the total income amounting to \$123 million. Expenditures for the humanitarian supplies and oil spares were \$9.24 billion in 2002, \$3.17 billion in 2003, and \$302 million in 2004, or a decrease of \$6.07 billion, and \$2.87 billion in 2003 and 2004, respectively, owing to the termination of the programme in November 2003.

Table 4
Decreases in account balances
(Millions of United States dollars)

<i>Account</i>	<i>2004</i>	<i>2003</i>	<i>2002</i>	<i>Decrease in 2004</i>		<i>Decrease in 2003</i>	
				<i>Amount</i>	<i>%</i>	<i>Amount</i>	<i>%</i>
Total income	123	4 295	9 154	4 172	97	4 859	53
Total expenditures	369	3 471	9 692	3 102	89	6 221	64
Sale of Iraqi oil	—	3 308	10 240	3 308	100	6 932	68
Interest income	114	396	603	282	71	207	34
Purchase of humanitarian supplies and oil spares	302	3 168	9 238	2 866	90	6 070	66

23. As at 31 December 2004, cash and investments amounted to \$3.54 billion. These adequately covered about \$2.89 billion of unliquidated obligations arising from approved contracts for current and prior financial periods. The total reserves and fund balances decreased by \$4.89 billion (88 per cent) from \$5.55 billion in 2002 to \$0.66 billion in 2004. The decrease resulted from fund transfers from 28 May 2003 to 31 December 2004 to the Development Fund for Iraq, as shown in table 5.

Table 5
Schedule of fund transfers to the Development Fund for Iraq from 28 May 2003 to 31 December 2004

(Billions of United States dollars)

<i>Year</i>	<i>Fund source</i>	<i>Date of transfer</i>	<i>Amount</i>	<i>Total</i>
2003	ESC	28 May 2003	1.000

	ESB	30 June 2004	0.500	
		3 November 2004	0.328	
	ESD	3 November 2004	0.100	
	ESB	30 December 2004	0.200	
Subtotal for 2004				3.628
Grand total				9.228

2. Winding-up process

24. After the termination of the Oil-for-Food Programme on 21 November 2003, the United Nations Office of the Iraq Programme was closed on 31 May 2004. The Office of Programme Planning, Budget and Accounts assumed the responsibility of completing the winding-up process, including the liquidation of advances by or reimbursement of expenditures to the implementing partners. As at 31 December 2004, full reimbursements were made to the specialized agencies and except for the Food and Agriculture Organization of the United Nations (FAO), all cash advances had been liquidated. As at 31 December 2004, the outstanding advances to FAO amounted to \$9.38 million (\$4.5 million as at 31 December 2005). Liquidation of the \$4.5 million, however, would be dependent upon the resolution of claims filed by a third party against FAO. The Board noted that escrow financial statements for the financial period ended 31 December 2004 disclosed in note 9 of the notes to financial statements an estimated contingent liability between \$6 million and \$7 million to cover all claims and disputes involving the United Nations or its agencies with third parties.

3. United Nations system accounting standards

25. The Board assessed the extent to which the financial statements of the United Nations Escrow (Iraq) Account for the financial period ended 31 December 2004 conformed to the United Nations system accounting standards. The review indicated

that the presentation of the financial statements was generally consistent with the standards.

4. Accounts and financial reporting

Cancellation of expired letters of credit

26. The liability under a letter of credit automatically ceases to exist upon its expiration. In the case of the Oil-For-Food Programme, the United Nations Treasury has an existing arrangement with BNP Paribas to disable the automatic cancellation of the liability pending verification by the United Nations Treasury to ensure that there are no amendments of letters of credit in process with BNP Paribas; no outstanding deliveries are pending as confirmed by the Central Bank of Iraq; and that no authentication documents are in transit emanating from the United Nations Independent Inspection Agents.

27. The United Nations Treasury requires BNP Paribas to submit on a monthly basis an ageing report of letters of credit that have expired after a grace period of 90 days to avoid the unnecessary commitment of cash collateral. The list of expired letters of credit triggers the cancellation of the corresponding obligation. Should the buyer and seller agree to honour the contract, an amendment to extend the validity of the letter of credit is issued by BNP Paribas to the buyer for the reinstatement of the cash collateral.

28. Based on the BNP Paribas liability report as at 31 December 2004, the outstanding liability of the programme covering 923 letters of credit, inclusive of 294 to expire in 2005-2006, amounted to \$2.85 billion, as follows:

Table 6

April	3	136 804 891.74
June	1	16 644 206.24
September	1	27 693 452.85
December	1	175 000.00
Subtotal	11	268 536 692.09
Grand total	923	2 854 003 097.49

29. As shown in table 6 above, a total of 331 letters of credit aggregating \$403 million and with expiration dates from August 2002 to September 2004, remained outstanding per BNP liability report. Of these, the 129 that have expired after a grace period of 90 days were cancelled and the corresponding obligations were closed as at April 2005, while the remaining 202 letters of credit, aggregating \$248.68 million, were still included in the liability report.

30. The non-cancellation of expired letters of credit unnecessarily tied up the equivalent cash collateral. Not immediately freeing unencumbered funds could also hamper the expeditious transfer of the remaining balances of the United Nations Escrow (Iraq) Account as envisioned in Security Council resolution 1483 (2003), while presenting a risk of being liquidated in error.

31. The Administration explained that certain expired letters of credit could not be cancelled owing either to the existence of valid claims or upon the request of the Iraqi authorities to keep the letters of credit active. It further explained that there were unusually long delays in the confirmation by the Central Bank of Iraq of the arrival of goods when the latter took full responsibility of authenticating deliveries. It has to consider these reasons before BNP is requested to cancel the relevant letters of credit.

32. The Administration informed the Board that the Office of Programme Planning, Budget and Accounts together with the Office of Legal Affairs is conducting an in-depth review of the whole question of extension of letters of credit, in the light of the complexities of the problem and taking into account the view of the Iraq Administration and other stakeholders.

33. The Board recommends that the Administration continue to closely coordinate with BNP Paribas on the timely and practicable cancellation of letters of credit, which had expired, particularly in respect of those without valid claims.

Unliquidated obligations

34. As at 31 December 2004, unliquidated obligations covering Funds ESB/ESC stood at \$2,889 million, consisting of approximately \$250 million for the current year and \$ 2,639 million covering prior years. Comparatively, the BNP Paribas liability report as at that date reflected an outstanding liability of \$2,854 million or a difference of about \$35 million.

35. The Board reviewed 79 individual miscellaneous obligating documents and noted that 11 showed differences in balances when compared with the balances per BNP liability report, as presented in table 7 below.

Table 7
Comparison of balances of unliquidated obligations

<i>Obligating document No.</i>	<i>Fund ESB balance</i>	<i>Fund ESC balance</i>	<i>Total per books ESB and ESC</i>	<i>BNP balance (in United States dollars)</i>	<i>Difference over or (under)</i>
94547	73 198 668.85	0.00	73 198 668.85	73 585 928.86	(387 260.01)

Total net difference					18 416.13

36. In the case of obligating document No. 86591, the Board noted that the obligation as reflected in the BNP Paribas liability report was based on the original letter of credit, which amounted to €5.445 million instead of the amended contract price of €4.995 million. As a consequence, the overstatement of the unliquidated obligation also unduly committed cash collateral in the amount of €450,000. Accordingly, the Administration advised BNP to correct the overstatement.

37. Moreover, as shown in table 8 below, a total of 10 obligations outstanding as at 31 December 2004 and aggregating \$5.7 million were not included in the BNP Paribas liability report.

Table 8
Outstanding obligations excluded from liability report

<i>Obligating document No.</i>	<i>Balance as at 31 December 2004 (in United States dollars)</i>	<i>Date closed in IMIS</i>

85844	712 347.35	29/03/05
Total	5 772 010.40	

38. Certain reconciliations had been completed and the variances between IMIS and the BNP Paribas liability report had been identified. The Board noted, however, that the timing of those adjustments did not coincide with the appropriate financial period.

39. The Administration explained that reconciliations are carried out on a regular basis and would continue to be carried periodically. In the case of the differences covering the five above-mentioned obligating documents, it explained that they were due to foreign exchange differences. BNP Paribas records the payments using the bank exchange rates, whereas the United Nations records the same payments using the established United Nations operational exchange rate for a particular month. Owing to fluctuations in exchange rates, these differences are not reconciled until either final payment is made or the obligation is closed. Four obligating documents were closed in IMIS in 2005 as the 2004 financial period had already been closed. BNP Paribas was advised of the necessary correction.

40. The Board recommends that the Administration continue to reconcile the balances of unliquidated obligations against the BNP Paribas liability report on a per-obligation basis and reflect the adjustment in the financial period to which it relates.

41. The Administration requested the Board to reconsider the second part of the recommendation in view of the practical difficulties in recording all adjustments within the same financial period as the IMIS would be open for approximately six weeks within which known adjustments would be entered after 31 December but before issuance of the financial statements. In the opinion of the Board, however, the number of weeks IMIS would remain open for adjustments after 31 December does not matter. Of importance is the swift ability of the Administration to identify items requiring adjustments.

Accounting for cancelled letters of credit

42. Paragraph 11 of the United Nations system accounting standards provides, inter alia, that financial statements should have the qualitative characteristics required to make the information provided useful to the readers. One qualitative characteristic demands reliability of recorded information.

43. Rule 105.8 (b) of the Financial Regulations and Rules of the United Nations, in relation to paragraph 11 of the United Nations system accounting standards, states that when any obligation previously recorded in the accounts is, for any reason, reduced (other than by payment) or cancelled, the certifying officer shall accordingly ensure that appropriate adjustments are recorded in the accounts.

44. The Board's review of a sample of transactions covering the period from January to March 2005 and aggregating \$96.8 million revealed that the amount of \$31.1 million (table 9) represented letters of credit of prioritized and amended contracts which expired in 2004.

Table 9
Sample letters of credit which expired in 2004

<i>Posted date</i>	<i>Communication No.</i>	<i>Obligating document No.</i>	<i>Amount (in United States dollars)</i>
25/02/2005	1300208	92023	9 108 578.43
25/02/2005	1030043	95682	1.682 828.76
25/02/2005	801127	94663	2 828 193.30
25/02/2005	801254	95986	1 400 000.00
25/02/2005	1300153	91615	1 188 627.45
25/02/2005	1200123	89671	760 875.49
25/02/2005	900828	84707	1 389 945.10
25/02/2005	801252	74243	885 000.00
25/02/2005	601440	96684	2 873 984.08
25/02/2005	801253	76366	1 060 000.00
25/02/2005	801109	95982	700 000.00
25/02/2005	801110	95983	1 200 000.00
07/03/2005	601404	73368	6 043 165.09
Total			31 121 197.70

45. Following the 90-day grace period, BNP Paribas cancelled these letters of credit between the periods from 11 January to 16 February 2005. Cancellation memorandums were issued by the United Nations Treasury between 22 February and 5 March 2005 which took effect on those dates instead of the actual letters of credit expiry dates in 2004. Accordingly, since the closure of the obligations arising from the cancelled letters of credit was recorded only in 2005, the balance of unliquidated obligations as at 31 December 2004 was overstated by \$31.12 million.

46. The Administration stated that owing to the delay in receiving authentication documents from the Central Bank of Iraq, the cancellation process took place in stages as the United Nations Treasury was still reviewing all expired letters of credit to ensure that there was no pending documentation before the list of cancellations was sent to BNP Paribas. Likewise, BNP Paribas reviewed its records to ensure that no documentation of performance regarding such letters of credit existed at their end before cancellations are effected.

47. The Board recommends that the Administration ensure that transactions pertaining to a particular period are accurately recorded during the same period.

Obligations raised/closed in 2005

48. Paragraph 30 of the United Nations system accounting standards provides, inter alia, that monetary items shall be reported using the United Nations operational rate of exchange in effect at the reporting date.

49. The Board examined the reserve for obligations covering transactions subsequent to the financial period ended 31 December 2004 and noted 28

obligations raised and 259 obligations closed, amounting to \$37.05 million and \$311.69 million, respectively, that were correctly posted in the 2004 accounting period.

50. The Board also noted that the currency amounts of 19 obligations, consisting of 5 obligations raised and 14 obligations closed were translated using exchange rates other than the exchange rate as at 31 December 2004, thus, understating the obligations by \$314,016 and \$355,740, respectively.

51. The Administration explained that they were aware of the technical issue within the batch programme which caused the slight discrepancies and that they would continue to review the issue with the IMIS team with several options having been considered.

52. The Board recommends that the Administration coordinate with the IMIS Team regarding the currency exchange rates that would be used in the translation of balances of obligations raised or closed as at financial statement date.

Adjustments on amended contracts

53. Table 10 presents price adjustments of 5 of the 68 amended contracts that were not correctly reflected in IMIS resulting in the understatement of the obligations by about \$0.29 million as at 31 December 2004.

Table 10
Price adjustments of the amended contracts

<i>Commission No.</i>	<i>Obligating document No.</i>	<i>Currency</i>	<i>Exchange rate</i>	<i>Per contract (curr)</i>	<i>Per IMIS (curr)</i>	<i>Difference (translated amount)</i>
801547	77968	USD	1.00	110 327 309.00	110 340 996.04	(13 687.04)
900778	86262	EUR	0.737	23 732 235.00	23 742 432.42	(13 836.39)
731024	89042	EUR	0.737	3 376 576.00	3 405 792.94	(39 643.07)
1130047	87675	EUR	0.737	1 865 575.93	2 018 696.15	(207 761.49)
						(274 927.99)

54. The Administration stated that the variance pertaining to obligating document Nos. 77968 and 89042 was the result of applying different foreign exchange rates. Obligating document No. 86262 has two letters of credit that would necessitate the amendment of the contract amount. Obligating document No. 87675 has been under scrutiny on account of unresolved amendment issues.

55. The Administration further explained that obligations based on the status of letters of credit are reviewed by certifying officers in coordination with the United Nations Treasury although it conceded that obtaining an assurance that cancellation of obligations are proper is a tedious process.

56. The Board recommends that the Administration continue to review the obligations related to amended contracts and effect the adjustments in IMIS in a timely manner.

Long-outstanding liability

57. As at 31 December 2004, other accounts payable account of \$728,281 under Fund ESE included an amount of \$579,268 representing a deferred payable to the Government of Germany for the helicopter flights provided to UNSCOM (now UNMOVIC) in the early 1990s.

58. The Board noted that the non-settlement was due to conflicting opinions/interpretation that such reimbursement is in line with paragraph 8 (e) of Security Council resolution 986 (1995).

59. Considering that the account had remained outstanding since 1992, the Board is concerned as to the validity of the payable account.

60. The Board recommends that the Administration in conjunction with UNMOVIC, resolve whether the payable to the Government of Germany represents a valid claim against the funds of the programme in order to clear the balance.

5. Liabilities for end-of-service benefits

61. The estimated liabilities for end-for-service benefits are indicated in note 7 to the financial statements and amounted to \$1.4 million for unpaid accrued vacation compensation and \$1.3 million for unpaid repatriation grants and related expenditures of relocation entitlement, that is, a total of \$2.7 million as at 31 December 2004.

6. Write-off of losses of receivables

62. Receivables amounting to \$3,647.96 were written off against the funds covered in the United Nations Escrow (Iraq) Account established under the provisions of Security Council resolutions relating to Iraq. The amount consisted of receivables for the loss of unsold UNPA stamps held by the United Nations Office of the Humanitarian Coordinator in Iraq amounting to \$3,539.96 and the cost of shipment of excess personal effects of \$108.

7. Ex gratia payments

63. In accordance with financial rule 105.12, the Administration informed the Board that ex gratia payments totaling \$156,712 were made during the financial period ended 31 December 2004 representing payments for medical expenses of \$151,712 to a visiting relative of a United Nations Office of the Humanitarian Coordinator in Iraq staff member and compensation for the death of a contractor in the amount of \$5,000.

8. Investigation of programme administration and management

64. An independent, high-level inquiry committee was tasked by the Secretary-General in April 2004 to investigate the administration and management of the programme, from its inception to its transfer to the Coalition Provisional Authority in Iraq. The terms of reference agreed between the Chairman of the Independent Inquiry Committee and the Secretary-General provided that the independent inquiry would collect and examine information relating to the administration and management of the programme, including allegations of fraud and corruption on the

part of United Nations officials, personnel and agents, as well as contractors, including entities that have entered into contracts with the United Nations or with Iraq under the programme.

65. The significant findings¹ published by the Independent Inquiry Committee in its series of reports were as follows:

<i>Report</i>	<i>Significant findings</i>
Interim report of 3 February 2005	<p>(a) The selection process for each of the three United Nations contractors selected in 1996 did not conform to established financial and competitive bidding rules. The decision-making process in 1996 for the United Nations contractors did not meet reasonable standards of fairness and transparency. The consistent violation of prescribed procurement procedures, engaging in unfair practices, and failing to appropriately document decision-making processes, reflect adversely on one area of the United Nations administration;</p> <p>(b) The Office of the Iraq Programme Executive Director solicited and received on behalf of an oil buyer several barrels of allocation of oil from 1998 to 2001. His action and continuing conflict of interest were ethically improper, and seriously undermined the integrity of the United Nations. He denied having approached Iraqi officials and requesting oil allocation on behalf of an oil buyer. He failed to disclose the full nature of his contacts and relationship with a close friend as well as the full nature and extent of his communications with two individuals (one his close friend), regarding allocations under the programme. Further, his statements regarding the source of additional cash income, which he disclosed on his United Nations financial disclosure forms for the years 1999 to 2003 were not adequately supported by information;</p> <p>(c) Given the size and complexity of the programme, the resources committed to the internal audit of the programme were inadequate in comparison to the level of internal auditing staff for peacekeeping missions. Several important aspects of the programme were not reviewed by the Internal Audit Division. The Office of Internal Oversight Services reporting to the General Assembly on programme-related matters was unsatisfactory. The United Nations did not possess adequate means to resolve disputes regarding the activities of the Office of Internal Oversight Services, including disagreements relating to the scope of audits. Several deviations from best practices were evident. They included (i) inability to report directly to an audit committee or other independent board, (ii) failure to complete enterprise-wide risk assessment, and (iii) lack of budgetary independence;</p> <p>(d) The ESD account was not treated by the United Nations as a commission, either by design or practice, but rather as a necessary pool of funds dedicated to cover significant administrative expenses associated with the programme. Funds designated to be deposited in the account, pursuant to appropriate resolutions, were in fact deposited. Internal Audit Division conducted only one internal audit relating to the account. The accounting and financial reporting processes and results of the account were audited by the Board of Auditors.</p>

¹ Based on reports published by the Independent Inquiry Committee on its website www.iic-offp.org.

<i>Report</i>	<i>Significant findings</i>
Second interim report of 29 March 2005	<ul style="list-style-type: none"> (a) There is no evidence that the selection of a humanitarian goods imports inspector in 1998 was subject to any affirmative or improper influence of the Secretary-General in the bidding or selection process; (b) While an open bidding process took place, United Nations procurement rules relating to the qualification of prospective contractors were not appropriately followed; (c) Evidence is not reasonably sufficient to show that the Secretary-General knew that a humanitarian goods inspector had submitted a bid on the humanitarian inspection contract in 1998; (d) In the light of the newspaper article and the complaint of a conflict of interest because of the Secretary-General's son's employment, as well as the published information concerning the alleged illicit payments to a certain family, the inquiry initiated by the Secretary-General was inadequate, and the Secretary-General should have referred the matter to an appropriate United Nations department (Office of Internal Oversight Services and/or Office of Legal Affairs) for a thorough and independent investigation; (e) The Secretary-General's son actively participated in efforts by a goods inspector to conceal the true nature of its continuing relationship with him and deceived the Secretary-General about this continuing financial relationship; (f) The humanitarian goods inspector made false statements to the public, the United Nations, and the Independent Inquiry Committee; (g) The former Under-Secretary-General for Management failed to take any action beyond the one-day inquiry that was conducted concerning the truth of the allegations and their ongoing impact on the fitness of the goods inspector to remain as a United Nations contractor.
Third interim report of 8 August 2005	<ul style="list-style-type: none"> (a) The Office of the Iraq Programme Executive Director corruptly benefited from his request and receipt of Iraqi oil allocations and two individuals (one his close friend) financially benefited from and assisted in the Office of the Iraq Programme Executive Director's corrupt activity; (b) The United Nations procurement officer and his friend corruptly participated in a scheme to solicit a bribe from one of the companies that submitted a bid for the oil inspection contract, in connection with the programme's oil inspection contact. However, the Committee does not have evidence that the company paid a bribe.
The management of the United Nations Oil-for-Food Programme of 7 September 2005	<ul style="list-style-type: none"> (a) The Security Council failed to define clearly the practical parameters, policies and administrative responsibilities of the programme. The lack of clarity was exacerbated by permitting the Iraqi regime to exercise too much initiative in the programme design and its subsequent implementation. Compounding that difficulty, the Security Council, in contrast to most past practice, retained through the Committee established under its resolution 661 (1990) substantial elements of administrative control. Neither the Security Council nor the Secretariat leadership was in overall control;

- (b) The administrative structure and the personnel practices of the Organization — certainly within the Secretariat — were simply not fit to meet the truly extraordinary challenges presented by the programme, or even programmes of much lesser scope. The Committee reports reveal serious instances of illicit, unethical, and corrupt behaviour within the United Nations, but the pervasive administrative difficulties were not only, or even primarily, related to personal malfeasance. As will become evident in the Committee’s final report, the wholesale corruption within the programme took place among private companies, manipulated by the Iraqi regime;
- (c) Most notable among the United Nations structural faults is a grievous absence of effective auditing and management controls;
- (d) There was an absence of a sufficiently strong organizational ethic — an ethic that should permeate its leadership and staff if the United Nations is to command the respect upon which its work depends. The isolated instances of corruption extend to the top of the programme administration — one important reflection of the managerial weaknesses;
- (e) The particular nature of the programme placed in stark relief the difficulties of effective cooperation among United Nations agencies. There was and is no simple way accurately to track programme expenditures across agency lines.
- Manipulation of the Oil-for-Food Programme by the Iraqi regime of 27 October 2005
- (a) Iraq dispensed oil allocations to and on behalf of a wide array of individuals and groups whom it considered influential in their respective countries and who espoused pro-Iraq views or organized anti-sanctions activities. The Iraqi regime ultimately derived \$228.8 million of illicit income from the payment of surcharges (“commissions” or “loading fees”) in connection with oil contracts from 139 companies under the Oil-for-Food Programme;
- (b) Iraq derived more than \$1.5 billion in income from “kickbacks” paid by 2,253 companies it selected to receive contracts for humanitarian goods under the programme. The payments made by those companies to the Iraqi regime were disguised by various subterfuges (“after-sales service fees” and “inland transportation fees”) and were not reported to the United Nations by Iraq or the participating contractors;
- (c) The banking services agreement required the escrow bank to confirm all letters of credit issued by other banks under the programme and also allowed the escrow bank, including its branch, subsidiary and affiliate banks, principally in Geneva to issue letters of credit on behalf of private party oil purchasers. The escrow bank’s loyalties were divided between serving the interests of the United Nations to promote transparency of transactions conducted under the programme and serving the interests of private clients to maintain the confidentiality of their business and financing arrangements, once the escrow bank chose to issue letters of credit for oil transactions;
- (d) The available evidence does not establish that the oil inspector systematically failed to perform in accord with its contractual obligations. Likewise, the review has not disclosed systematic non-performance of humanitarian goods inspectors of their contractual obligations. However, two investigative matters remain open with

respect to one of the two goods inspectors, which will be referred to the Office of Internal Oversight Services, Investigations Division, for further review;

- (e) The Committee does not find that the interactions of two former Humanitarian Coordinators with programme contractors violated existing Staff Regulations and Rules. Their activities, however, illustrate two distinct ethical dilemmas confronted by United Nations staff members — one involving post-employment activities and another involving responses to requests for official assistance from persons of their home countries;
- (f) There was no evidence that the former Secretary-General took part in or was aware of any corrupt activity.

9. Action taken by the Administration on the findings of the Independent Inquiry Committee

66. The Secretary-General responded to the definitive report before the security Council on 7 September 2005.

C. Management issues

1. Programme management

67. Based on the records of the Treasury of the United Nations as at April 2005, multiple extensions of the validity of the letters of credit were granted on account of the non-delivery of ordered items on scheduled shipment dates, as shown in table 11 below.

Table 11
Letters of credit with multiple extensions

			2	23 Sept 04	21 Mar 04	21 Dec 04

68. The Board believes that indefinite extensions are not consistent with the spirit of Security Council resolution 1483 (2003) mandating the Administration to fulfil all remaining obligations and ultimately turn over to the Government of Iraq all unencumbered balances. That view is shared by the former Controller of the United Nations in his letter of 16 December 2004 to the Permanent Representative of Iraq to the United Nations stating that in order to wind up the role of the United Nations in processing letters of credit, expired letters of credit will no longer be reinstated, no amendments to shipping dates would be extended after 31 December 2004, and funds associated with the corresponding letters of credit would be transferred to the Development Fund for Iraq.

69. The Administration explained that extensions of the validity of the letters of credit were based upon the agreement between the supplier, the buyer, the Authority and the Central Bank of Iraq. It had informed the Board that Iraqi authorities and certain Member States had requested the United Nations to assist Iraq and continue the processing of payments of the letters of credit. The Administration is reviewing the process relating to extensions, taking into account the practical complexities.

Payments of letters of credit

70. Shipments of humanitarian supplies and oil spares are subject to strict requirements as conditions for payment. In addition to authentication sheets, the Treasury of the United Nations issues "Secretary General's designee's standardized confirmation of arrival of goods in Iraq" authorizing BNP Paribas to initiate the payment process. BNP Paribas in turn prepares a payment sheet and submits the same to the United Nations Treasury for further verification, and if found in order, returns the duly payment sheet to BNP Paribas to effect the payment to the intended beneficiary. Those measures were intended to ensure that payments would be effected only for authorized transactions and beneficiaries.

71. The Board also noted that based on the review of 60 sample payments, the processing time ranged from one to seven days or an average time of 2.51 days per payment. Further, the orderly maintenance of files by the United Nations Treasury, which consisted of thousands of contracts for humanitarian supplies and oil spares, provided the assurance of the availability of supporting documents and ease of retrieval.

72. The Board encourages the United Nations Treasury to continue ensuring that processing and verification of payments including the filing of supporting documents remain efficient and effective.

Mandates of the United Nations Monitoring, Verification and Inspection Commission

73. As a subsidiary body of the Security Council UNMOVIC submitted a report on its activities to the Council at least quarterly. Much of its activities were focused on future monitoring through advance training and maintenance of a roster of experts/inspectors as well as working on the draft of a compendium of Iraq's prohibited weapons programmes. Activities related to the mandate include examination of commercially available satellite imagery, continuous assessment of sites known to have contained dual-use equipment and materials which could no longer be accounted for, and others.

74. The Board noted that UNMOVIC had approximately \$345 million in total reserves and fund balances as at 31 December 2004 and only \$17 million expenditures were incurred during the financial period ended 31 December 2004. The Board is concerned as to the optimum use of the resources of UNMOVIC considering that some of its goals and objectives may have been overtaken by events without its mandates being revisited as required in resolutions 1483 (2003) and 1546 (2004).

75. UNMOVIC officials were optimistic that following the Iraq election in January 2005 the Security Council would be inclined to revisit the said mandates.

2. Cases of fraud and presumptive fraud

76. Notwithstanding the results of the investigation by the Independent Inquiry Committee of the Oil-for-Food Programme, the Administration informed the Board that there were no known cases of fraud and presumptive fraud in the remaining activities of the programme, or in the operations of UNMOVIC during the period under audit.

D. Acknowledgment

77. The Board wishes to express its appreciation for the cooperation and assistance extended to the auditors by the Secretary-General of the United Nations, the Under-Secretary-General for Management, the Acting Executive Chairman, United Nations Monitoring, Verification and Inspection Commission and their officers and staff.

Chapter II

Audit opinion

We have audited the accompanying financial statements of the United Nations Escrow (Iraq) Account comprising statements I to III and the supporting notes to the financial statements for the financial period ended 31 December 2004. These financial statements are the responsibility of the Secretary-General of the United Nations. Our responsibility is to express an opinion on the financial statements based on our audit.

We conducted our audit in accordance with the common auditing standards of the Panel of External Auditors of the United Nations, the specialized agencies and the International Atomic Energy Agency and with the International Standards on Auditing. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Secretary-General, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for the audit opinion.

In our opinion, the financial statements present fairly, in all material respects, the financial position of the United Nations Escrow (Iraq) Account at 31 December 2004 and the results of its operations and its cash flows for the period then ended, in accordance with the United Nations system accounting standards.

Furthermore, in our opinion, the transactions of the United Nations Escrow (Iraq) Account that have come to our notice, or which we have tested as part of our audit, have in all significant respects been in accordance with the Financial Regulations and legislative authority.

Without qualifying our audit opinions expressed above, we draw attention to note 11 to the financial statements, which describes the results of the investigation conducted by the Independent Inquiry Committee in its interim reports of 3 February 2005 and 29 March 2005. The Independent Inquiry Committee noted that there were shortcomings in the procurement, management and internal oversight areas, and that certain actions of the former Executive Director of the programme were ethically improper. As at 31 March 2005, the Secretariat of the United Nations was in the process of considering the findings and recommendations of the Independent Inquiry Committee.

Certification of the financial statements

1. The financial statements pursuant to Security Council resolution 986 (1995), and pursuant to Security Council resolutions 687 (1991), 706 (1991), 778 (1992), 1284 (1999), 1483 (2003) and 1546 (2004), for the period 1 January to 31 December 2004 have been prepared in accordance with financial rule 106.10.
2. The summary of significant accounting policies applied in the preparation of these statements is included as notes to the financial statements. These notes provide additional information and clarifications for the financial activities related to Security Council resolutions 687 (1991), 706 (1991), 778 (1992), 986 (1995), 1284 (1999), 1483 (2003) and 1546 (2004) undertaken by the Organization during the period covered by these statements for which the Secretary-General has administrative responsibility.
3. I certify that the appended financial statements of the United Nations Escrow Account, number I to III, are correct.

Notes to the financial statements for the United Nations Escrow Account established under the provisions of Security Council resolutions relating to Iraq

Note 1

The United Nations and its activities

(a) The Charter of the United Nations was signed on 26 June 1945 and came into force on 24 October 1945. The Organization's primary objectives, to be implemented through its five major organs, are as follows:

- (i) The maintenance of international peace and security;
- (ii) The promotion of international economic, social progress and development programmes;
- (iii) The universal observance of human rights;
- (iv) The administration of international justice and law;
- (v) The development of self-government for Trust Territories;

(b) The General Assembly focuses on a wide range of political, economic and social issues as well as the financial and administrative aspects of the Organization;

(c) Under the direction of the Security Council, the Organization has been involved in various aspects of peacekeeping and peacemaking, including efforts towards resolving conflicts, restoring democracy, promoting disarmament, providing electoral assistance, facilitating post-conflict peacebuilding, and engaging in humanitarian activities to ensure survival of groups deprived of basic needs and overseeing the prosecution of persons responsible for serious violations of international humanitarian law;

(d) The Economic and Social Council plays a particular role in economic and social development, including a major oversight role in other organizations of the United Nations system to address international economic, social and health problems;

(e) The International Court of Justice has jurisdiction over disputes between Member States brought before it for advisory opinions or binding resolutions;

(f) The Trusteeship Council completed its primary functions in 1994 with the termination of the Trusteeship Agreement for the last United Nations Trust Territory.

Note 2

Summary of significant accounting and financial reporting policies of the United Nations

(a) The accounts of the United Nations are maintained in accordance with the Financial Regulations of the United Nations as adopted by the General Assembly, the rules formulated by the Secretary-General as required under the regulations and administrative instructions issued by the Under-Secretary-General for Management, or the Controller. They also take fully into account the United Nations system accounting standards, as adopted by the Administrative Committee

on Coordination, which has since been replaced by the United Nations System Chief Executives Board for Coordination. The Organization follows international accounting standard 1, "presentation of financial statements", on the disclosure of accounting policies, as modified and adopted by the Chief Executives Board for Coordination as follows:

- (i) Going concern, consistency, and accrual are fundamental accounting assumptions. Where fundamental accounting assumptions are followed in financial statements, disclosure of such assumptions is not required. If a fundamental accounting assumption is not followed, that fact should be disclosed together with the reasons;
 - (ii) Prudence, substance over form and materiality should govern the selection and application of accounting policies;
 - (iii) Financial statements should include clear and concise disclosure of all significant accounting policies that have been used;
 - (iv) The disclosure of the significant accounting policies used should be an integral part of the financial statements. These policies should normally be disclosed in one place;
 - (v) Financial statements should show comparative figures for the corresponding period of the preceding financial period;
 - (vi) A change in an accounting policy that has a material effect in the current period or may have a material effect in subsequent periods should be disclosed together with the reasons. The effect of the change should, if material, be disclosed and quantified;
- (b) The Organization's accounts are maintained on a fund accounting basis. Separate funds for general or special purposes may be established by the General Assembly, the Security Council or the Secretary-General. Each fund is maintained as a distinct financial and accounting entity with a separate self-balancing double-entry group of accounts. Separate financial statements are prepared for each fund or for a group of funds of the same nature;
- (c) The financial period of the Organization is a biennium and consists of two consecutive calendar years for all funds other than peacekeeping accounts, which are reported on a fiscal year basis covering the period 1 July to 30 June;
- (d) Generally, income, expenditure, assets, and liabilities are recognized on the accrual basis of accounting;
- (e) The accounts of the Organization are presented in United States dollars. Accounts maintained in other currencies are translated into United States dollars at the time of the transactions at rates of exchange established by the United Nations. In respect of such currencies, the financial statements shall reflect the cash, investments, unpaid pledges, and current accounts receivable and payable in currencies other than the United States dollars, translated at the applicable United Nations rates of exchange in effect as at the date of the statements. In the event that the application of actual exchange rates at the date of the statements would provide a valuation materially different from the application of the Organization's rates of exchange for the last month of the financial period, a footnote will be provided quantifying the difference;

(f) The Organization's financial statements are prepared on the historical cost basis of accounting and are not adjusted to reflect the effects of changing prices for goods and services;

(g) The cash flow summary statement is based on the indirect method of cash flows, as referred to in the United Nations system accounting standards;

(h) The Organization's financial statements are presented in accordance with the ongoing recommendations of the Task Force on Accounting Standards to the United Nations System Chief Executives Board for Coordination;

(i) Income:

(i) Voluntary contributions from Member States or other donors are recorded as income on the basis of a written commitment to pay monetary contributions at specified times within the current financial period. Voluntary contributions made in the form of services and supplies that are acceptable to the Secretary-General are credited to income or noted in the financial statements;

(ii) Income received under inter-organization arrangements represents allocations of funding from agencies to enable the Organization to administer projects or other programmes on their behalf;

(iii) Allocations from other funds represent monies appropriated or designated from one fund for transfer to and disbursement from another fund;

(iv) Income for services rendered includes amounts charged for salaries of staff members and other costs that are attributable to the provision of technical and administrative support to other organizations;

(v) Interest income includes all interest earned on deposits in various bank accounts, investment income earned on marketable securities and other negotiable instruments, and investment income earned on the cash pool. All realized losses and net unrealized losses on short-term investments are offset against investment income. Investment income and costs associated with operation of investments in the cash pool are allocated to participating funds. Interest income is available for allotment purposes on a six-monthly basis;

(vi) Net gains or losses on currency fluctuations other than for current year's obligations are accumulated on a six-monthly basis. Effective 1 January 2002, the net amount is recognized as income or expenditure every six months in the financial statements;

(vii) Miscellaneous income includes income from rental of premises, sale of used or surplus property, refunds of expenditures charged to prior periods, settlements of insurance claims, monies accepted for which no purpose was specified, and other sundry income;

(viii) Income relating to future financial periods is not recognized in the current financial period and is recorded as deferred income as referred to in paragraph (l) (iii) below;

(j) Expenditure:

(i) Expenditures are incurred against authorized appropriations or commitment authorities. Total expenditures reported include unliquidated obligations and disbursements;

(ii) Expenditures incurred for non-expendable property are charged to the budget of the period when the property is acquired and are not capitalized. Inventory of such non-expendable property is maintained at historical cost;

(iii) Expenditures for future financial periods are not charged to the current financial period and are recorded as deferred charges as referred to in paragraph (k) (vi) below;

(iv) Expenditures include currency exchange adjustments on current period obligations;

(k) Assets:

(i) Cash and term deposits represent funds in demand deposit accounts and interest-bearing bank deposits;

(ii) Investments include marketable securities and other negotiable instruments acquired by the Organization to produce income. Short-term investments are stated at lower of cost or market; long-term investments are stated at cost. Cost is defined as the nominal value plus or minus any unamortized premium or discount. The market value of investments is disclosed in the footnotes to the financial statements;

(iii) Cash pool comprises participating funds' share of the cash and term deposits, short-term and long-term investments and accrual of investment income, all of which are managed in the pool. The investments in the pool are similar in nature and are accounted for as stated in item k (ii) above. Share in cash pool is reported separately in each of the participating fund's statement, and its composition and the market value of its investments are disclosed in footnotes in the individual statements;

(iv) Inter-fund balances reflect transactions between funds, and are included in the amounts due to and from the United Nations General Fund. Inter-fund balances also reflect transactions directly with other escrow accounts and with the United Nations General Fund. Inter-fund balances are settled periodically, dependent upon availability of cash resources;

(v) Provision for delays in collection of receivable balances is not made;

(vi) Deferred charges normally comprise expenditure items that are not properly chargeable in the current financial period. They will be charged as expenditure in a subsequent period. These expenditure items include commitments approved by the Controller for future financial periods in accordance with financial rule 106.7. Such commitments are normally restricted to administrative requirements of a continuing nature and to contracts or legal obligations where long lead times are required for delivery;

(vii) For purposes of the balance sheet statements only, those portions of education grant advances that are assumed to pertain to the scholastic years completed as at the date of the financial statement are shown as deferred charges. The full amounts of the advances are maintained as accounts receivable from staff members until the required proofs of entitlement are produced, at which time the budgetary accounts are charged, and the advances settled;

(viii) Maintenance and repairs of capital assets are charged against the appropriate budgetary accounts. Furniture, equipment, other non-expendable property, and leasehold improvements are not included in the assets of the Organization. Such acquisitions are charged against budgetary accounts in the year of purchase. The value of non-expendable property is disclosed in notes to the financial statements;

(l) Liabilities and reserves and fund balances:

(i) Operating reserves are included in the totals for “reserves and fund balances” shown in the financial statements;

(ii) Unliquidated obligations for future years are reported both as deferred charges and as unliquidated obligations;

(iii) Deferred income includes income received but not yet earned;

(iv) Commitments of the Organization relating to prior, current and future financial periods are shown as unliquidated obligations. Effective 1 January 2000, unliquidated obligations for the escrow account for humanitarian activities in Iraq remain valid until completion of the project. All other obligations continue to remain valid for 12 months following the end of the biennium to which they relate;

(v) Contingent liabilities, if any, are disclosed in the notes to the financial statements;

(vi) The United Nations is a member organization participating in the United Nations Joint Staff Pension Fund, which was established by the General Assembly to provide retirement, death, disability and related benefits. The Pension Fund is a funded defined benefit plan. The financial obligation of the Organization to the Pension Fund consists of its mandated contribution at the rate established by the General Assembly together with its share of any actuarial deficiency payments under article 26 of the Regulations of the Pension Fund. Such deficiency payments are payable only if and when the United Nations General Assembly has invoked the provision of article 26, following determination that there is a requirement for deficiency payments based on an assessment of the actuarial sufficiency of the Pension Fund as at the valuation date. As at the date of the current financial statement, the General Assembly has not invoked this provision.

Note 3

United Nations escrow account established under the provisions of Security Council resolution 986 (1995) (statements I, II and III)

(a) An escrow account to be administered by the Secretary-General was established in 1996 in order to receive the proceeds from sale of Iraqi oil as approved by Security Council resolution 986 (1995). The Security Council, in paragraph 1 of resolution 986 (1995), authorized States to permit the import of petroleum and petroleum products originating in Iraq, including financial and other essential transactions directly relating thereto, sufficient to produce a sum not exceeding a total of \$1 billion every 90 days. In paragraph 3 the Security Council stated that the resolution shall remain in force for 180 days;

(b) The authorization given by paragraph 2 of resolution 986 (1995) permitted Turkey to import petroleum and petroleum products originating in Iraq, sufficient to meet the pipeline tariff charges for the transport of these products through the Kirkuk-Yumurtalik pipeline in Turkey, after deduction of 30 per cent to the Compensation Fund. Resolution 1330 (2000) revised this deduction to 25 per cent. Due to the cessation of the “Oil-for-Food Programme” (the programme), pipeline tariff charges are no longer incurred;

(c) The provisions of resolution 986 (1995), which authorized sales of Iraqi oil not exceeding a total of \$1 billion every 90 days, remained in force by resolution 1111 (1997), resolution 1129 (1997), resolution 1143 (1997) and resolution 1158 (1998) until 30 May 1998;

(d) The Security Council, in paragraphs 1 and 2 of resolution 1153 (1998), which took effect on 1 June 1998, decided that the authorization given to States by paragraph 1 of resolution 986 (1995) shall permit the import of petroleum and petroleum products originating in Iraq, including financial and other essential transactions directly relating thereto, sufficient to produce a sum not exceeding a total of \$5.256 billion, in the 180-day mandate period referred to in paragraph 1 of resolution 1153 (1998). This provision of resolution 1153 (1998), remained in force by resolution 1210 (1998), resolution 1242 (1999), and resolution 1281 (1999);

(e) Resolution 1284 of 17 December 1999 lifted the dollar cap and authorized sales of Iraqi oil of any volume during the 180-day mandate period. This resolution remained in force by resolution 1302 (2000), resolution 1330 (2000), resolution 1352 (2001) which extended resolution 1330 (2000) for 30 days, resolution 1360 (2001), resolution 1382 (2001), resolution 1409 (2002), resolution 1443 (2002) which extended 1409 (2002) until 4 December 2002, and resolution 1447 (2002) which extended the mandate to 3 June 2003. The final sale of oil under the Programme was for shipment made on 20 March 2003;

(f) The Security Council, in paragraphs 1 and 3 of its resolution 1175 (1998), authorized States to permit the export to Iraq of the necessary parts and equipment (“spare parts”) to enable Iraq to increase the export of petroleum and petroleum products, in quantities sufficient to produce the sum established in paragraph 2 of resolution 1153 (1998). The resolution stated that the funds in the escrow account pursuant to resolution 1153 (1998) up to \$300 million may be used to meet any reasonable expenses, other than expenses payable in Iraq, which follow directly from contracts approved by the Committee established by resolution 661 (1990). Resolutions 1293 (2000) and 1302 (2000) established that up to \$600 million may be authorized to permit States to export to Iraq the necessary parts and equipment to enable Iraq to increase the export of petroleum and petroleum products. Resolutions 1330 (2000), 1352 (2001), 1360 (2001), 1382 (2001), 1409 (2002) and 1447 (2002) retain the \$600 million limit;

(g) Resolution 1330 (2000) allowed for funds up to €600 million from the escrow account to be used for the installation, maintenance, and training services of spare parts and equipment relating to the oil industry;

(h) The Security Council, in its resolution 1472 (2003), recognized that in view of the exceptional circumstances prevailing in Iraq, on an interim and exceptional basis, technical and temporary adjustments should be made to the

programme, and authorized the Secretary-General to make such changes for a period of 45 days;

(i) The Security Council, in its resolution 1476 (2003), decided that the provisions contained in paragraph 4 of resolution 1472 (2003) remain in force until 3 June 2003 and might be subject to further renewal by the Council;

(j) The Security Council, in its resolution 1483 (2003), requested the Secretary-General to terminate the programme within six months, and to transfer responsibility for the administration of any remaining activity to the Coalition Provisional Authority (the Authority). The Council also requested the consolidation of the accounts established pursuant to paragraphs 8 (a) "15 Governorates of Central and Southern Iraq", and 8 (b) "3 Governorates of Northern Iraq" of resolution 986 (1995);

(k) Sale of Iraqi oil is recognized as revenue in the fund for humanitarian activities in Iraq based on the bill of lading date and the total value of oil loaded as stipulated in the commercial invoice issued by the State Oil Marketing Organization. The proceeds from sale of Iraqi oil are allocated, upon receipt of deposits, to other accounts established pursuant to paragraph 8 of resolution 986 (1995). No oil sales were recorded after 20 March 2003;

(l) The funds from the sale of Iraqi oil pursuant to the authorization given by paragraph 1 of resolution 986 (1995) are to be used to meet the humanitarian needs of the Iraqi people and for the other purposes in paragraph 8 of resolution 986 (1995). In its resolution 1409 (2002), the Security Council permits the sale or supply of any commodities or products other than those referred to in paragraph 24 of resolution 687 (1991) as it relates to military commodities and products, or military-related commodities or products covered by the Goods Review List (S/2002/515) and its amendments in resolution 1454 (2002). The percentages used in allocating the oil sale proceeds were determined as follows:

(i) 53.034 per cent to finance the export to Iraq of medicine, health supplies, food, and materials and supplies for essential civilian needs. Pursuant to resolution 1302 (2000) this was increased to 54.034 per cent and by resolution 1330 (2000) further increased to 59.034 per cent, less the payment referred to in paragraph (vi) below;

(ii) 13.0 per cent to complement the distribution by the Government of Iraq of goods imported by providing funds to the United Nations inter-agency humanitarian programme operating in the three northern governorates of Iraq, Arbil, Dihouk and Suleimaniyeh;

(iii) 2.215 per cent to meet the operational and administrative costs to the United Nations;

(iv) 30.0 per cent allocated to the Compensation Fund established by the Security Council in its resolution 705 (1991). Pursuant to resolution 1330 (2000) this was decreased to 25.0 per cent;

(v) 0.751 per cent allocated to the United Nations Monitoring, Verification and Inspection Commission (UNMOVIC) established by the Security Council in resolution 1284 (1999), which replaced the Special Commissions established by Security Council resolution 687 (1991) to meet operating costs;

(vi) A maximum of \$10 million every 90-day period to be allocated to the escrow account established by the Security Council in its resolutions 706 (1991) and 712 (1991) for the payments envisaged under paragraph 6 of resolution 778 (1992). In resolution 1284 (1999), the Council suspended payments to this escrow account for an initial period of six months from 17 December 1999. In resolution 1302 (2000), the Council extended this suspension for a further 180-day period and transferred the allocation referred to (i) above. In resolution 1330 (2000), the Council reinstated the allocation of a maximum of \$10 million every 90 days from 6 December 2000;

(m) Notwithstanding the periods for the sale of Iraqi oil as authorized by Security Council resolutions, the financial statements I, II and III (United Nations Escrow Account) are prepared every six months;

(n) Included in financial statements I, II and III (United Nations Escrow Account) are details relating to the humanitarian activities, related operational and administrative costs, and pipeline tariff charges, that are undertaken under the provisions of Security Council resolution 986 (1995). The financial statements of the Compensation Fund as referenced in paragraph (l) (iv) above are reported on in a separate volume of the United Nations financial statements;

(o) Expenditure incurred during the biennium 2004-2005 for humanitarian supplies and spare parts relate to adjustments and reinstatements of contract entered into in previous years.

Note 4

United Nations Escrow Account established under the provisions of Security Council resolutions 687 (1991), 706 (1991), 778 (1992) and 1284 (1999) (statements I, II and III)

(a) Included in financial statements I, II and III are the escrow accounts established by the Security Council in resolutions 706 (1991) and 712 (1991) for the payments envisaged under paragraph 6 of resolution 778 (1992), and the Special Account established by the Security Council in resolutions 687 (1991), 706 (1991) and 1284 (1999). These accounts were previously included in a separate volume. All comparative figures have been restated. The escrow account established under Security Council resolutions 706 (1991), 712 (1991) and 778 (1992) returned all funds in 2003. As a result, there are no further transactions to report relating to this escrow account;

(b) The escrow account administered by the Secretary-General under Security Council resolutions 706 (1991) and 712 (1991) provided for Iraqi funds from the sale of oil to be used for payment by the United Nations Compensation Commission, the full costs of carrying out the tasks authorized by section C of resolution 687 (1991), the full costs incurred by the United Nations in facilitating the return of all Kuwait property seized by Iraq, half the costs of the Boundary Commission, and the cost to the United Nations of implementing resolution 706 (1991), and of other necessary humanitarian activities in Iraq;

(i) With the refusal of Iraq to sell oil under the provisions of Security Council resolutions 706 (1991) and 712 (1991), the Security Council on 2 October 1992 adopted resolution 778 (1992) as an alternative means of providing funds for the purposes specified. Member States in which there were

petroleum products owned by Iraq or Member States with funds of the Government of Iraq representing the proceeds of petroleum sales, paid for by the purchaser after 6 August 1990, were required to transfer some or all of these funds to the escrow account. Additionally, in resolution 778 (1992) the Council urged Member States to contribute funds from other sources to the escrow account. All such funds transferred or contributed to the escrow account under the provisions of resolution 778 (1992) were to be transferred back to the accounts of States from which funds were provided, together with applicable interest, at such time when oil exports have taken place pursuant to the system provided in resolutions 706 (1991) and 712 (1991) and the escrow account has received funds from the proceeds of sale. Iraqi oil exports began in December 1996 and in January 1997 the escrow account started receiving funds from the proceeds of sale which were transferred back to the accounts of States that provided the original funds to the escrow account;

(ii) In December 1999, pursuant to Security Council resolution 1284 (1999), payment to the escrow account from the proceeds of sales was suspended. The suspension, which was extended an additional 180 days by the Security Council in resolution 1302 (2000), was lifted by the Security Council in resolution 1330 (2000) in December 2000;

(iii) In May 2003 the Security Council in resolution 1483 (2003) requested the Secretary-General to restore funds that were provided by Member States pursuant to resolution 778 (1992). All such funds were returned in June 2003;

(c) The Security Council in resolution 687 (1991) requested the Secretary-General to undertake certain tasks in connection with the situation between Iraq and Kuwait. The costs of those activities were to be considered as an advance pending the receipt of payments to the Organization by Iraq in respect of certain activities, and by Iraq and Kuwait jointly in respect of the costs of the Boundary Commission;

(i) With the adoption by the Security Council of resolution 778 (1992), the above-mentioned costs have been covered by transfers from the escrow account. Furthermore, the costs of the Special Commission are met by transfer from the escrow account pursuant to Security Council resolution 986 (1995);

(ii) The Security Council decided by resolution 1284 (1999) to establish the United Nations Monitoring, Verification and Inspection Commission (UNMOVIC). The responsibilities mandated to the Special Commission are undertaken by UNMOVIC;

(iii) The Security Council in resolutions 1483 (2003) and 1546 (2004) reaffirmed the Council's intention to revisit the mandate of UNMOVIC.

Note 5

Independent Inquiry Committee into the United Nations Oil-for-Food Programme expenditure

The Security Council in its resolution 1538 (2004) welcomed the Secretary-General's appointment of an independent high-level inquiry to investigate allegations concerning the United Nations Oil-for-Food Programme. Costs of the Committee are met from funds for administrative and operational costs of the programme. Expenditures during the twelve-month period of the biennium 2004-2005 ending 31 December 2004 were:

<i>(Thousands of United States dollars)</i>	
Salaries	4 139.8
Consulting fees	5 148.9
Travel	1 270.6
Communication	72.8
Premises	222.5
Equipment	1 023.8
Miscellaneous supplies and services	72.5
Total	11 950.9

Note 6**Non-expendable property**

In accordance with United Nations accounting policies, non-expendable property is charged against the current allotment in the year of purchase. The non-expendable property valued at historical cost, according to the cumulative inventory records is:

	<i>2004</i>	<i>2002</i>
<i>(Thousands of United States dollars)</i>		
UNOHCI	—	5 746.0
UNMOVIC	9 954.2	1 179.2
Agencies ^a	2 717.0	20 976.7
United Nations Office of the Humanitarian Coordination in Iraq	—	— ^b
Independent Inquiry Committee	837.1	—

^a Due to evacuation of United Nations personnel from Iraq, it was not possible to fully ascertain the value of non-expendable property in Iraq as at 31 December 2004.

^b Previously included in financial statements of the United Nations General Fund and related funds, volume I.

Note 7**Liabilities for end-of-service benefits**

(a) Staff members who separate from the Organization are entitled to be paid for any unused vacation days they may have accrued up to a maximum of 60 days. The Organization's total liability for such unpaid accrued vacation compensation for staff working in the various activities related to Security Council resolutions 687 (1991), 706 (1991), 778 (1992), 986 (1995), 1284 (1999) and 1483 (2003) as of 31 December 2004 is estimated at \$1.4 million;

(b) Some staff members are entitled to repatriation grant and related expenditures of relocation upon their separation from the Organization based on the number of years of service. The Organization's total liability for such unpaid repatriation and relocation entitlement for staff working in the various activities

related to Security Council resolutions 687, 706, 778, 986, 1284 and 1483 as of 31 December 2004 is estimated at \$1.3 million.

Note 8

Future modus operandi of United Nations Escrow Account established under Security Council resolution 986 (1995)

(a) The Security Council in resolution 1483 (2003), extended the Secretary-General's responsibilities under Council resolutions 1472 (2003) and 1476 (2003) for a period of six months. The Council requested the Secretary-General to terminate, in the most cost-effective manner, the ongoing operations of the programme at Headquarters and in the field by 21 November 2003, and to transfer responsibility for the administration of any remaining activity under the programme to the Authority;

(b) Accordingly, in the three Governorates of northern Iraq where the United Nations agencies were implementing the programme, contracts entered into by the agencies were transferred to the Authority. Similarly, in the 15 Governorates of central and southern Iraq, where, after the outbreak of hostilities agencies had been assigned responsibility for procurement activities previously undertaken by the Government of Iraq, uncompleted contracts were handed over to the Authority;

(c) The Security Council in resolution 1546 (2004) decided that in connection with the dissolution of the Authority, the Interim Government of Iraq and its successors shall assume the rights, responsibilities and obligations relating to the programme that were transferred to the Authority, including all operational responsibility for the programme and any obligations undertaken by the Authority in connection with such responsibility, and responsibility for ensuring independently authenticated confirmation that goods have been delivered, and further decided that following a 120-day transition period from the date of adoption of the resolution, the Interim Government of Iraq and its successors shall assume all responsibility for certifying delivery of goods under previously prioritized contracts, and that such certification shall be deemed to constitute the independent authentication required for the release of funds associated with such contracts, consulting as appropriate to ensure the smooth implementation of those arrangements;

(d) As of 31 December 2004, the liquidation of the programme continued. All obligations relating to contracts that had not been prioritized in accordance with Security Council resolution 1483 (2003) had been closed, except for those where letters of credit had not lapsed. Obligations relating to contracts that had been prioritized remain as liabilities of the programme, and the related letters of credit have not been closed. The expiry dates for the letters of credit extend until 2007. As at 31 December 2004, \$9.228 billion was transferred to the Development Fund for Iraq, with \$3.628 billion being transferred during 2004. The remaining surplus funds will be returned to the Development Fund for Iraq in accordance with the provisions of paragraph 17 of resolution 1483 (2003). In that respect, and with the cancellation of further contracts and their related obligations during the first quarter of 2005, an additional sum of \$450 million has already been transferred to the Development Fund for Iraq.

Note 9
Contingent liabilities

In accordance with Security Council resolution 1483 (2003), as part of the liquidation process, all claims and disputes involving the United Nations or its agencies with third parties, in carrying out the activities of the programme are to be transferred to, and become the responsibility of, the Authority. There may be some circumstances where such a transfer is not possible and any liability and related fees will need to be met by the programme. The amount is estimated at between \$6 million and \$7 million.

Note 10
Operating reserves

An operating reserve of \$48 million was established during the period ended 31 December 2004 under "Administrative and operational costs". The reserve is to meet compensation costs payable in respect of those Oil-for-Food Programme staff members who were injured or killed as a result of the bombing of the United Nations Headquarters building in Baghdad on 19 August 2003, as well as to set aside funds to meet the expected costs of the Independent Inquiry Committee into the Oil-for-Food Programme and the administrative costs of the escrow accounts until all aspects of the programme have been completed.

Note 11
Investigation by the Independent Inquiry Committee

In April 2004, the Secretary-General appointed a high-level Independent Inquiry Committee to investigate the administration and management of the Oil-for-Food Programme from its inception to its transfer to the Coalition Provincial Authority, including allegations of fraud and corruption on the part of United Nations officials, personnel and agents as well as contractors, including entities that have entered into contracts with the United Nations or with Iraq under the programme. Following this, the Security Council adopted resolution 1538 (2004), in which it welcomed the inquiry.

The Committee recognized that the programme was unique to the United Nations in many aspects, namely, its sheer size, scope and political and geographic complexities. As of 31 March 2005, two interim reports dated 3 February 2005 and 29 March 2005 had been issued, and the Committee's inquiry was ongoing. The Committee's interim findings were that, inter alia, there were shortcomings in the procurement, management and internal oversight areas and that certain actions of the former Executive Director of the Programme "were ethically improper". The Committee also made interim recommendations related to the programme.

As at 31 March 2005, the Secretariat was in the process of considering the findings and recommendations in the Committee's interim reports.
