Monitoring and Tracking Mechanism of the Strategic Framework for Peacebuilding in Burundi

I. Context

1. The Strategic Framework for Peacebuilding in Burundi (PBC/1/BDI/4) formalizes the partnership between Burundi, the Peacebuilding Commission and other stakeholders in the consolidation of peace in the country. In order to complement the Strategic Framework for Peacebuilding, the Government of Burundi and the Peacebuilding Commission have jointly developed the Monitoring and Tracking Mechanism as described below to review, on a regular basis both locally and in New York, progress in the implementation of the Strategic Framework.

II. Monitoring and Tracking Mechanism

2. The Monitoring and Tracking Mechanism consists of three components: (a) the Partners Coordination Group in Burundi, which is the monitoring structure; (b) the matrix and progress reports; and (c) the Monitoring and Tracking Mechanism review meetings of the Peacebuilding Commission and other follow-up activities.

A. Partners Coordination Group

3. The Government of Burundi and its partners agreed to establish the Partners Coordination Group to serve as a dedicated framework for dialogue, coordination and monitoring for the Poverty Reduction Strategy Paper and the Strategic Framework.¹ Flexibility and pragmatism will guide the application of the terms of reference of the Partners Coordination Group. They will be updated when necessary.

4. The Partners Coordination Group is a three-tiered structure. At its base, it will have sectoral clusters coordinated by a Monitoring and Evaluation Group of the Poverty Reduction Strategy Paper to deal with technical aspects related to the

development and monitoring of sectoral strategies under the Poverty Reduction Strategy Paper. In parallel, there will be a Monitoring and Evaluation Group responsible for monitoring the Strategic Framework.

5. The second level, the Strategic Forum of the Partners Coordination Group, will deal with key issues emerging from the sectoral groups. It will ensure the coordination of the Priority Action Programme/Poverty Reduction Strategy Paper annual review and will consider suggestions coming from the Monitoring and Evaluation Group of the Strategic Framework.

6. The third level is the Political Forum of the Partners Coordination Group, under the alternating chairmanship of the two Vice-Presidents of the Republic. The Political Forum of the Partners Coordination Group will be the counterpart structure of the Burundi configuration of the United Nations Peacebuilding Commission in New York. The outcome of the quarterly deliberations of the high-level meetings of the Partners Coordination Group in Bujumbura will serve as a basis for the preparation of the reports to be considered at the Peacebuilding Commission's periodic reviews in New York.

7. In order to ensure effective monitoring and tracking of progress of engagements and contributions in the Strategic Framework, the Government of Burundi will allocate resources for the functioning of the Partners Coordination Group. The Peacebuilding Commission invites the international community to provide support for the effective functioning of the Partners Coordination Group, including through technical and financial assistance, as appropriate.

B. Matrix and progress reports

8. The matrix is designed to assess progress in Burundi on the implementation of the Strategic Framework using a two-fold approach: (a) monitoring the implementation of mutual engagements and contributions of the Government of Burundi, the Peacebuilding Commission, and other relevant actors as described in the Strategic Framework; and (b) monitoring progress towards achieving benchmarks for peace consolidation while mitigating risks identified in the Strategic Framework.

9. The matrix will serve as a basis for the biannual progress reports that will be provided by the Political Forum of the Partners Coordination Group to the Peacebuilding Commission, and will be updated as necessary. It will consist of several key elements:

- (a) Objectives and priority areas of the Strategic Framework;
- (b) Summary of risks related to each priority area, as identified in the Strategic Framework;
- (c) Critical benchmarks to gauge progress under the priority areas identified in the Strategic Framework (defined at the political and strategic levels);
- (d) Concrete indicators aimed at monitoring progress towards achieving benchmarks and mitigating the risks identified in the Strategic Framework;

(e) List of mutual engagements and contributions of the Government of Burundi, the Peacebuilding Commission and other stakeholders under each priority area.

10. The Monitoring and Evaluation Group of the Strategic Framework will review and update the indicators periodically. The Peacebuilding Commission takes note of the current version of the matrix (see annex), until a revised version is jointly agreed. Drawing upon the relevant information, the progress reports will comprise:

(a) A trend analysis: describing important developments in implementation under each priority area during the review period, and progress towards the benchmarks using the indicators identified under each priority area;

(b) A risk assessment: reviewing the effectiveness of specific interventions to mitigate risks and identifying any emerging risks;

(c) Assessment of the implementation of mutual engagements and contributions: reviewing the performance of the Government of Burundi, the Peacebuilding Commission, and other relevant actors as described in the Strategic Framework;

(d) Recommendations for follow-up and appropriate action.

11. The reports will be prepared by the Strategic Forum of the Partners Coordination Group with the support of the Peacebuilding Support Office. In preparing their input, the Peacebuilding Support Office will consult the rest of the United Nations system as necessary, in particular relevant departments, agencies, funds and programmes, as well as other relevant sources of information. The account of progress against the implementation of engagements of the Peacebuilding Commission will be prepared by the Peacebuilding Support Office, in consultation with the Peacebuilding Commission.

C. Review meetings and other follow-up activities

12. The Peacebuilding Commission in its Burundi configuration will hold two high-level (or ambassadorial-level) formal meetings per year to review the progress reports. Key stakeholders in the peacebuilding process of the country, such as Special Envoys, will be invited to attend at least one of the biannual meetings. The purpose of the formal meetings will be threefold: (a) to review the country's progress towards achieving the objectives of the Strategic Framework and its implication for further involvement of the Peacebuilding Commission; (b) to review progress by all relevant actors in honouring their engagements and contributions under the Strategic Framework; and (c) to rally all actors for further support to peacebuilding activities in Burundi. The meetings will also provide the opportunity to draw lessons from the functioning of the Monitoring and Tracking Mechanism and to update the Strategic Framework.

13. The calendar of formal meetings of the Burundi configuration of the Peacebuilding Commission will be established in consultation with the Government of Burundi and its partners so as to minimize any additional administrative requirements.

14. The formal meetings of the Burundi configuration of the Peacebuilding Commission will result in advice and recommendations on how stakeholders might achieve their engagements and contributions.

15. The formal meetings of the Burundi configuration of the Peacebuilding Commission could be complemented by additional meetings and briefings and by an annual visit of Peacebuilding Commission members to Burundi, as appropriate. If the situation so warrants, the Peacebuilding Commission visits could coincide with one of the high-level meetings of the Partners Coordination Group. Peacebuilding Commission meetings or field visits would also result in advice and recommendations from the Peacebuilding Commission to the Security Council, the General Assembly and the Economic and Social Council, and other relevant institutions.

16. Informal civil society briefings, with participation of both international and local civil society organizations, will precede the formal meetings of the Burundi configuration of the Peacebuilding Commission.

17. The Monitoring and Tracking Mechanism will be reviewed at the end of 2008, and revised as appropriate.

Partners Coordination Group

Matrix of the Monitoring and Tracking Mechanism of the Strategic Framework for Peacebuilding in Burundi

Objectives and key elements

1. The matrix is designed to assess peacebuilding progress in Burundi using a twofold approach:
 - (a) Monitoring the mutual engagements and contributions of the Government of Burundi, the Peacebuilding Commission and other relevant actors as described in the Strategic Framework;
 - (b) Monitoring progress towards achieving benchmarks for peace consolidation while mitigating risks identified in the Strategic Framework.
2. Accordingly, the matrix brings together key relevant elements:
 - (a) Objectives and priority areas of the Strategic Framework;
 - (b) A summary of key risks related to each priority area (as identified in the Strategic Framework);
 - (c) Critical benchmarks to gauge progress (defined at the political and strategic level, and thus leaving technical and sectoral benchmarks to programmes and projects);
 - (d) Concrete indicators specifically aimed at monitoring progress towards benchmarks and objectives in line with the mutual engagements (as identified in the Strategic Framework);
 - (e) List of mutual engagements and contributions of the Government of Burundi, the Peacebuilding Commission, and other stakeholders under each priority area.
3. The Monitoring and Evaluation Group of the Strategic Framework will establish the baseline information for the indicators and update them periodically. The matrix provides the main basis for the biannual progress reports that will be prepared by the Strategic Forum of the Partners Coordination Group. In reviewing the report done by the Monitoring and Evaluation Group of the Strategic Framework, the Strategic Forum of the Partners Coordination Group will take into account the progress report done by the Monitoring and Evaluation Group of the Poverty Reduction Strategy Paper, to ensure the complementarities.
4. Drawing upon the relevant information, the progress reports will comprise:
 - (a) A trend analysis: describing important developments under each priority area during the review period, and progress towards the benchmarks using the indicators identified under each priority area;
 - (b) A risk assessment: reviewing the effectiveness of specific interventions to mitigate risks and identifying any emerging risks;
 - (c) Assessment of the implementation of mutual engagements and contribution: reviewing the performance of the Government of Burundi, the Peacebuilding Commission and other relevant actors as described in the Strategic Framework;
 - (d) Recommendations for follow-up and appropriate action.
