Summary

In a number of resolutions, the General Assembly noted with satisfaction the active participation of regional and other organizations in the work of the United Nations. The present report is prepared pursuant to the most recent requests of the Assembly that the Secretary-General submit a report on the implementation of those resolutions at its sixty-seventh session.

As requested by the General Assembly in paragraph 4 (l) of the annex to its resolution 58/316, this is a consolidated report on cooperation between the United Nations and regional and other organizations.

The present report covers the period since the most recent consolidated report of the Secretary-General on cooperation between the United Nations and regional and other organizations was issued on 20 September 2010 (A/65/382-S/2010/490).

In its resolution 1809 (2008), the Security Council requested the Secretary-General to include, in his regular reporting to the Council, assessments of progress on the cooperation between the United Nations and relevant regional organizations. I. Introduction

1. Section II of the present report has been prepared pursuant to the most recent resolutions in which the General Assembly requested the Secretary-General to report on the cooperation between the United Nations and a number of regional and other organizations.

2. In its resolution 1809 (2008), the Security Council requested the Secretary-General to include, in his regular reporting to the Council, assessments of progress on the cooperation between the United Nations and relevant regional organizations. This report constitutes part of the response to that request.

3. The activities and achievements described in this report demonstrate the depth of cooperation achieved between the United Nations and its regional partners across the full range of mandate areas, from maintenance of international peace and security and humanitarian assistance to development and the protection of human rights. Such cooperation shows, in practice, how the arrangements provided for in Chapter VIII of the Charter can be operationalized, leading to concrete results. The United Nations remains committed to working closely with regional and subregional organizations to devise common responses to the increasingly complex and transnational challenges that we face.

II. Cooperation between the United Nations and regional and other organizations

African Union

4. In 2010, the Secretary-General and the Chairperson of the African Union (AU) Commission launched the Joint Task Force on peace and security, which meets twice a year. The United Nations Office to the African Union was established in 2010, strengthening the partnership between the two organizations. The Office, which represents the Department of Political Affairs, the Department of Peacekeeping Operations and the Department of Field Support, of the United Nations Secretariat, on the ground, has worked closely with and supported AU in the areas of policymaking, operational planning and long-term capacity-building, as well as in a number of country and regional situations.

5. The Security Council and the AU Peace and Security Council held their fifth and sixth joint consultative meetings in 2011 and 2012.

6. The United Nations, through the Department of Political Affairs, has assisted AU in the development of its continental conflict prevention framework, which seeks to harmonize AU efforts with those of the regional economic communities. In the context of the Ten-year Capacity Building Programme for AU, the United Nations supports the development of the African Solidarity Initiative in mobilizing resources for post-conflict reconstruction and development. The United Nations has also developed a regional strategy to support the implementation of the AU Regional Cooperation Initiative against the Lord's Resistance Army. The United Nations, AU and regional economic communities have carried out joint preventive diplomacy and peacemaking activities in Guinea-Bissau, Madagascar and Mali, and between the Sudan and the Republic of South Sudan, among others.

7. The United Nations and AU have an important strategic partnership in Somalia, as guarantors for the road map to ending the transition, which is due to conclude in August 2012. The two organizations jointly developed the strategic concept for the African Union Mission in Somalia (AMISOM) in early 2012, subsequently endorsed by the AU Peace and Security Council and the Security Council. The Department of Peacekeeping Operations has provided backstopping support to the United Nations Office to the African Union in assisting the AU Commission in its planning, deployment and management of AMISOM, while the Department of Field Support has continued to deliver the logistic support package to AMISOM through the United Nations Support Office for the African Union Mission in Somalia (UNSOA).

8. The Department of Peacekeeping Operations and the Department of Field Support cooperated closely with AU in support of the African Union-United Nations Hybrid Operation in Darfur (UNAMID). The Department of Field Support continued to participate in the tripartite mechanism with the Government of the Sudan and AU to facilitate UNAMID deployment and mandate implementation. Following the adoption of the Doha Document for Peace in Darfur in 2011, the Department of Peacekeeping Operations worked closely with AU to develop a framework for the facilitation of a comprehensive and inclusive settlement to the conflict, which was presented to the Security Council in 2012. Further to Council resolution 2003 (2011), the Department of Peacekeeping Operations, the Department of Field Support and AU conducted a review of the military, police and mission support components of UNAMID from July 2011 to March 2012.

9. The Department of Peacekeeping Operations has provided technical support to AU in a number of thematic areas, including security sector reform, disarmament, demobilization and reintegration, and mine action, coordinated through the United Nations Office to the African Union. The Department of Peacekeeping Operations has supported AU in the formulation of its continental security sector reform policy and in the implementation of a number of security sector reform projects. In 2012, the Department of Peacekeeping Operations, the United Nations Office to the African Union and the World Bank launched a one-year programme to develop AU disarmament, demobilization and reintegration capacity, to be supplemented by a three-year follow-up programme currently under development.

10. The United Nations Regional Centre for Peace and Disarmament in Africa continued to assist AU in its efforts in respect of developing an African common strategy to control small arms and light weapons. The United Nations Regional Centre for Peace and Disarmament in Africa and AU organized an expert meeting in 2011 to draft this strategy. In 2012, the United Nations Regional Centre for Peace and Disarmament in Africa and AU held an African regional consultation on the future of the arms trade treaty. The United Nations Regional Centre for Peace and Disarmament in Africa also contributed to the AU expert meeting in 2012 on the situation of arms control in the Sahel.

11. The Counter-Terrorism Committee Executive Directorate has further strengthened its cooperation with AU, particularly with the African Centre for the Study and Research on Terrorism. The Centre contributed to Directorate workshops on the prohibition of incitement to committing terrorism and enhancing cultural dialogue, within the framework of Security Council resolution 1624 (2005). It has regularly joined the Directorate on visits to Member States conducted on behalf of

the Security Council Committee established pursuant to resolution 1373 (2001) concerning counter-terrorism (known as the Counter-Terrorism Committee). Following the United Nations assessment mission to the Sahel in 2011, the Directorate and the Centre released their joint findings on security and border control.

13. In 2010, the Office for the Coordination of Humanitarian Affairs of the United Nations Secretariat and AU signed a memorandum of understanding and established a plan of action. The Office for the Coordination of Humanitarian Affairs supports AU on the implementation of its guidelines for the protection of civilians during AU-mandated peace support operations. The Office for the Coordination of Humanitarian Affairs has hosted and supported events aimed at strengthening the engagement and visibility of the community of affected member States in Africa. In 2011, the Office for the Coordination of Humanitarian Affairs supported the development of a mechanism for the mobilization, allocation and disbursement of resources for crises on the continent, which was deployed during the Sahel crisis in 2012.

14. The Office of the United Nations High Commissioner for Refugees (UNHCR) has supported the AU ministerial process in the area of civil registration and vital statistics, highlighting the need to ensure birth registration for refugee children and to prevent statelessness. UNHCR contributed to the development of an AU border management programme, in particular with regard to the identification and protection of refugees in mixed flows. 54. Since 2010, the Community of Portuguese-speaking Countries has been the main platform for activities of the ILO International Programme on the Elimination of Child Labour in Portuguese-speaking countries in Africa as well as in Timor-Leste. The involvement of the Community of Portuguese-speaking Countries in the Programme has ensured greater coherence and strengthened social dialogue mechanisms. In 2011, Ministers of Labour and Social Affairs of the eight Community countries adopted a resolution on the prevention and elimination of child labour exploitation, which called for the adoption of national action plans and capacity-building activities.

55. FAO has steadily increased its assistance to the Community of Portuguese-speaking Countries in recent years through cooperation agreements, particularly in the field of land tenure and management. Two technical cooperation programmes and one Government cooperation programme were completed.

56. WHO and CPLP are working together within the framework of the ePORTUGUÊS Network, a platform for strengthening collaboration among Portuguese-speaking countries, especially in the areas of health information and capacity-building of human resources for health.
