Working Group on Children and Armed Conflict

Conclusions on children and armed conflict in Afghanistan

1. At its 19th meeting, on 19 December 2008, the Working Group on Children and Armed Conflict examined the first report of the Secretary-General on children and armed conflict in Afghanistan (S/2008/695), which was introduced by the Special Representative of the Secretary-General on Children and Armed Conflict. The Permanent Representative of Afghanistan to the United Nations participated in the subsequent discussion.
2. The main elements of the exchange of views among the members of the Working Group are summarized below.
3. The members of the Working Group welcomed the submission of the report of the Secretary-General, in accordance with Security Council resolution 1612 (2005).
4. Grave concern was expressed about the persistence of widespread violations and abuses committed against children in the context of armed conflict in Afghanistan. The members of the Working Group strongly condemned the training and use of children to commit terrorist acts by several armed groups, in particular the Taliban, and other violations and abuses committed by such groups against children.
5. The members of the Working Group welcomed the concrete steps taken by the Government of Afghanistan to promote the protection of children, including by putting an end to the recruitment and use of children, in accordance with its national legislation and international obligations. The Government of Afghanistan was encouraged to continue to address, in cooperation with the United Nations country team and civil society organizations, impunity for the perpetrators of crimes and abuses against children.
6. The members of the Working Group encouraged the international community to provide the Government of Afghanistan with the necessary support for its efforts to protect children affected by armed conflict and to further translate commitments into concrete action on the ground, in order to prevent violations and abuses against children, including any further recruitment, in accordance with its national legislation and international obligations, and to develop sufficient capacity in disarmament, demobilization and reintegration programmes for children, along with other child protection strategies.

7. Grave concern was expressed regarding the killing and maiming of civilians, including children, in particular as a consequence of attacks on hospitals and schools, including girls' schools; the targeting of girl students by the Taliban and other armed groups; and the presence of anti-personnel landmines and unexploded ordnance.

8. Grave concern was also expressed that civilians, particularly children and women, continued to account for an increasing number of victims in the armed conflict. In that regard, the members of the Working Group emphasized the need for all actors to ensure full respect for the rules of international humanitarian law, in particular the prohibition of indiscriminate and excessive use of force; to investigate and bring to justice those responsible for violations of applicable international law, including international humanitarian law and international human rights law; and to take all feasible steps to minimize risk to civilians, especially children.

9. Grave concern was further expressed regarding sexual violence against children, especially boys, and the Government of Afghanistan was encouraged to address, in cooperation with the United Nations country team and civil society organizations, ending impunity for perpetrators through advocacy, legislative and other appropriate measures.

10. Particular attention was paid to restricted humanitarian access in conflict-affected areas.

11. Particular concern was expressed about the situation of children detained by the authorities of Afghanistan and international military forces because of their alleged association with armed groups, emphasizing the need for full respect for relevant provisions of international law.

12. The United Nations country-level task force on monitoring and reporting was encouraged to bring the monitoring and reporting mechanism to its full capacity in order to collect more comprehensive data on all violations and abuses committed against children in the conflict.

13. The members of the Working Group also encouraged parties to the conflict, particularly the Taliban, to develop and implement concrete action plans for the release of children associated with those parties, in accordance with Security Council resolutions 1539 (2004) and 1612 (2005).

14. The Permanent Representative of Afghanistan:

(a) Reiterated the commitments of his Government to fully cooperate with the international community and the Working Group, with a view to putting an end to violations and abuses committed against children in armed conflict;

(b) Questioned the level of credibility of some of the information and sources mentioned in the report of the Secretary-General;

(c) Underlined that insufficient data collection by the country-level task force in the areas controlled by anti-Government forces had prevented the Secretary-General from reporting adequately on the violations and abuses committed against children by the Taliban and other armed groups, thus giving an unbalanced assessment of the situation of children in Afghanistan;

(d) Provided the Working Group with a compilation of national statutes, legislation and international human rights treaties adopted by the government of Afghanistan to protect and promote the rights of children in Afghanistan.

15. The members of the Working Group took note of the information provided by the Government of Afghanistan and invited the Office of the Special Representative to take that information into account and to continue to consult with the Government in the preparation of subsequent reports. Further to the meeting and subject to and consistent with applicable international law and relevant Security Council resolutions, including Council resolution 1612 (2005),¹ the Working Group agreed to the following direct action.

Public statements issued by the Chairman of the Working Group

To all the armed groups mentioned in the report of the Secretary-General, in particular the Taliban

(a) *Calling* their attention to the fact that the Security Council has received a report by the Secretary-General on children and armed conflict in Afghanistan;

(b) *Expressing* its condemnation in the strongest terms of the recruitment and use of children by armed groups, in particular the training and use of children to commit terrorist attacks, and all other violations and abuses committed against children by armed groups in Afghanistan, including killing and maiming resulting inter alia, from attacks in public places and/or the targeting of schoolchildren, particularly girls, abduction and sexual violence against children;

(c) *Expressing also* its condemnation in the strongest terms of the attacks against humanitarian actors, in particular killings and abductions;

(d) *Urging* them:

(ii) To comply with international humanitarian law and to recognize and maintain the civilian status and safety of schools, hospitals and religious institutions, including their personnel, and to refrain from any attack on United Nations premises;

(a) To publicly condemn and take all feasible steps to prevent the recruitment and use of children, in violation of applicable international law, in particular using them to commit terrorist acts; all other violations committed against children, including the killing and maiming of civilians, targeting schools and hospitals and sexual violence against children; and attacks against humanitarian personnel;
