Letter dated 30 May 2019 from the Secretary-General addressed to the President of the Security Council

I have the honour to transmit herewith the sixty-eighth monthly report of the Director-General of the Organisation for the Prohibition of Chemical Weapons (OPCW), submitted pursuant to paragraph 12 of Security Council resolution [2118 \(2013\)](#) (see annex). The report covers the period from 24 April to 23 May 2019.

Pursuant to the framework of the structured dialogue agreed between the OPCW Technical Secretariat and the Syrian Arab Republic, the Declaration Assessment Team continues its efforts to clarify all outstanding issues regarding the initial declaration of the Syrian Arab Republic. I look forward to the report of the OPCW Technical Secretariat on the analysis of all the information and documents, including of samples collected during the technical consultations held in the Syrian Arab Republic from 10 to 17 April 2019.

In relation to the inspections at the Barzah and Jamraya facilities of the Scientific Studies and Research Centre, which were conducted by the OPCW Technical Secretariat in 2018, the results of the analysis of the samples taken during the inspections were received by the OPCW Technical Secretariat and subsequently shared with the Syrian Arab Republic. The OPCW Technical Secretariat will report on the results of the inspections to the OPCW Executive Council at its ninety-first session, to be held from 9 to 12 July 2019. I reiterate my hope that the dialogue between the OPCW Technical Secretariat and the Syrian authorities will contribute to finding ways to move forward on all chemical-weapons related issues in the Syrian Arab Republic.

Furthermore, and pursuant to the decision adopted by the Conference of the States Parties to the Chemical Weapons Convention at its fourth special session on 27 June 2018, the OPCW Technical Secretariat has established an Investigation and Identification Team, which has initiated its work to identify the perpetrators of the use of chemical weapons in the Syrian Arab Republic. I look forward to the next progress report on implementation of that decision, to be submitted to the OPCW Executive Council at its ninety-first session.

As I have stated repeatedly, the use of chemical weapons is abhorrent. There are no imaginable circumstances that can excuse the use of such weapons. It is, therefore, imperative to identify and hold accountable all those who have used chemical weapons. Unity in the Security Council is fundamental to achieve this urgent obligation.
