ISSUE	OUTCOME	LANGUAGE	
Peace consolidation in West Africa	S/PRST/2009/20 10 July 2009	The Security Council expresses its concern on the impact of the global economic crisis on West African economies, since the region is already confronted with development challenges such as rising food insecurity, climate change adaptation and mitigation, and youth unemployment. The Council encourages continued engagement of financial institutions and development partners to mitigate the adverse effects of the decline in economic growth and other destabilizing factors in West Africa.	
Maintenance of international peace and security	S/PRST/2011/15	The Security Council recognizes the responsibility for sustainable development issues, including climate change, conferred upon the General Assembly and the Economic and Social Council.	
·	20 July 2011	The Security Council underlines General Assembly resolution 63/281 of June 3, 2009, which: reaffirms that the United Nations Framework Convention on Climate Change is the key instrument for addressing climate change, recalls the provisions of the UNFCCC, including the acknowledgement that the global nature of climate change calls for the widest possible cooperation by all countries and their participation in an effective and appropriate international response, in accordance with their common but differentiated responsibilities and respective capabilities and their social and economic conditions, and invites the relevant organs of the United Nations, as appropriate and within their respective mandates to intensify their efforts in considering and addressing climate change, including its possible security implications.	
		The Security Council notes General Assembly resolution 65/159 of December 20, 2010, entitled 'Protection of global climate for present and future generations of humankind'.	
		The Security Council notes that, in response to the request contained in General Assembly resolution 63/281, the Secretary-General submitted a report to the General Assembly on 'Climate change and its possible security implications' (A/64/350).	
		The Security Council expresses its concern that possible adverse effects of climate change may, in the long run, aggravate certain existing threats to international peace and security.	
		The Security Council expresses its concern that possible security implications of loss of territory of some States caused by sea-level-rise may arise, in particular in small low-lying island States.	
		The Security Council notes that in matters relating to the maintenance of international peace and security under its consideration, conflict analysis and contextual information on, inter alia, possible security implications of climate change is important, when such issues are drivers of conflict, represent a challenge to the implementation of Council mandates or endanger the process of consolidation of peace. In this regard, the Council requests the Secretary-General to ensure that his reporting to the Council contains such contextual information.	
Peace and security in Africa - Sahel	S/PRST/2012/26 10 December 2012	The Security Council expresses its concern about the underlying problems in the Sahel region and remains engaged in addressing the complex security and political challenges in this region that are inter-related with humanitarian and developmental issues as well as adverse effects of climate and ecological changes.	
Peace and security in Africa	S/PRST/2013/10	The Security Council reaffirms its concern about the alarming situation in the Sahel region and its commitment to address the complex security and political challenges in this region that are	
	16 July 2013	interrelated with humanitarian and developmental issues as well as adverse effects of climate and ecological changes. The Security Council welcomes, in this context, the deployment of the United Nations Multidimensional Integrated Stabilization Mission in Mali (MINUSMA) following the transfer of authority from the African-led International Support Mission in Mali to MINUSMA on 1 July 2013.	
Peace and security in Africa	<u>S/PRST/2013/20</u> 12 December 2013	The Security Council reiterates its continued concern about the alarming situation in the Sahel region and reaffirms its continued commitment to address the complex security and political challenges in this region, which are interrelated with humanitarian and developmental issues as well as the adverse effects of climate and ecological changes. The Security Council reiterates its strong condemnation of the recent terrorist attacks perpetrated in the region. The Security Council also strongly condemns the abuses of human rights and violence against civilians, notably women and children, committed in the region by terrorist and other extremist groups.

Threats to international peace and security caused by terrorist acts	<u>S/PRST/2014/17</u> 28 July 2014	The Security Council reiterates its continued concern about the alarming situation in the Sahel region and reaffirms its continued commitment to address the complex security and political challenges to the stability and development of the region despite the collective efforts undertaken by the region and the international community and reaffirms its continued commitment to address these challenges, which are interrelated with humanitarian and developmental issues as well as the adverse effects of climate and ecological changes. The Security Council reiterates the importance of a coherent, comprehensive and coordinated approach encompassing governance, security, humanitarian, human rights, developmental and environmental aspects to respond to the threats across the Sahel region as well as to address the root causes of these challenges.
Women, Peace and Security	<u>S/RES/2242</u> 13 October 2015	Noting the changing global context of peace and security, in particular relating to rising violent extremism, which can be conducive to terrorism, the increased numbers of refugees and internally displaced persons, the impacts of climate change and the global nature of health pandemics, and in this regard reiterating its intention to increase attention to women, peace and security as a cross-cutting subject in all relevant thematic areas of work on its agenda, including threats to international peace and security caused by terrorist acts,
Peace and security in Africa	<u>S/PRST/2015/24</u> 8 December 2015	The Security Council takes note of the report (S/2015/866) of the Secretary-General on the progress toward the implementation of the United Nations Integrated Strategy for the Sahel (UNISS) and welcomes the briefing on 25 November 2015 by the Special Envoy of the Secretary-General (SESG) for the Sahel, Ms. Hiroute Guebre Sellassie. The Security Council encourages further progress by the United Nations system and its partners toward the implementation of the UNISS, including through support to the Group of 5 for the Sahel (G5 Sahel) in order to assist in addressing the security and political challenges to the stability and development of the Sahel region. The Security Council reaffirms its continued commitment to address all these challenges, which are interrelated with humanitarian and development issues as well as the adverse effects of climate and ecological changes. The Security Council reiterates the importance of national and regional ownership of the UNISS, and commends the growing leadership role assumed by the countries of the region. It welcomes in this regard, the establishment of the G5 Sahel, which aims to enhance ownership of the initiatives focused on addressing the threats to peace, security and development in the Sahel.
Peace consolidation in West Africa	<u>S/PRST/2016/11</u> 28 July 2016	The Security Council commends the Special Representative for its participation in the briefing on Peace and Security in Africa: Challenges of the Sahel Region" that was held on May 26th, encourages further progress by the United Nations system and its partners towards the implementation of the United Nations Integrated Strategy for the Sahel (UNISS), including through support to the Group of 5 for the Sahel (G5), in order to assist in addressing the security and political challenges to the stability and development of the Sahel region and reaffirms its continued commitment to address such challenges, which are interrelated with humanitarian and development issues as well as the adverse effects of climate and ecological changes.
Peace consolidation in West Africa	<u>S/PRST/2017/2</u> 20 January 2017	The Security Council encourages further progress by the United Nations system and its partners towards the implementation of the United Nations Integrated Strategy for the Sahel (UNISS), including through support to the Group of 5 for the Sahel (G5), in order to assist in addressing the security and political challenges to the stability and development of the Sahel region and reaffirms its continued commitment to address such challenges, which are interrelated with humanitarian and development issues as well as the adverse effects of climate and ecological changes, and, in this regards, highlights the need for adequate risk assessments and risk management strategies relating to climate change impacts.
Peace and security in Africa - Lake Chad Basin Region	<u>S/RES/2349</u> 31 March 2017	Recognises the adverse effects of climate change and ecological changes among other factors on the stability of the Region, including through water scarcity, drought, desertification, land degradation, and food insecurity, and emphasises the need for adequate risk assessments and risk management strategies by governments and the United Nations relating to these factors
Peace consolidation in West Africa	<u>S/PRST/2017/10</u> 24 July 2017	The Security Council encourages further progress by the implementation of the UNISS, including through support to the G5, in order to assist in addressing the security and political challenges to the stability and development of the Sahel region and reaffirms its continued commitment to address such challenges, which are interrelated with humanitarian and development issues as well as the adverse effects of climate and ecological changes, and, in this regard, highlights the need for adequate risk assessments and risk management strategies related to climate change impacts

ISSUE	OUTCOME	LANGUAGE
Peace consolidation in West Africa	<u>S/PRST/2018/16</u> 10 August 2018	The Security Council expresses its concern for increased tensions between pastoralists and farmers in the region driven by competition for natural resources, rapid population growth, weak governance, pressures related to climate and ecological factors, and the circulation of small arms and light weapons and encourages ECOWAS and its Member States, with the support of UNOWAS, to address these challenges in a coordinated and holistic manner.
		The Security Council expresses concern over the overall humanitarian situation in the region, characterized by the impact of armed conflict and terrorism, extreme poverty, food insecurity, including conflict-induced hunger and threat of famine, forced displacement, human rights violations and abuses, sexual and gender-based violence, adverse effects of climate change, ecological changes, natural disasters and epidemics, which contribute to the high levels of structural, chronic and acute vulnerability in the region and continue to affect populations, and call for significant humanitarian and development action as well as the disbursement of previously pledged funds. The Security Council welcomes efforts of the Governments in the Lake Chad Basin Region and regional and sub-regional organizations to prevent further deterioration of the humanitarian crisis, while recognizing the need for enhanced national efforts to address the vast humanitarian needs
		The Security Council recognizes the adverse effects of climate change, ecological changes and natural disasters among other factors on the stability of West Africa and the Sahel region, including through drought, desertification, land degradation and food insecurity, continues to stress the need for long-term strategies by governments and the United Nations, based on risk assessments to support stabilization and build resilience, and further requests that such information be taken into consideration by UNOWAS in its activities
Central African Region	<u>S/PRST/2018/17</u> 10 August 2018	The Security Council recognises the adverse effects of climate change, ecological changes and natural disasters among other factors on the stability of the Central Africa Region, including through drought, desertification, land degradation, and food insecurity, continues to stress the need for long-term strategies by governments and the United Nations, based on risk assessments, to support stabilisation and build resilience, and further requests that such information be taken into consideration by UNOCA in its activities
Central African Republic	<u>S/RES/2448</u> 13 December 2018	Recognising the adverse effects of climate change, ecological changes and natural disasters, among other factors, on the stability of the Central African Region, including through drought, desertification, land degradation, and food insecurity, and stressing the need for adequate risk assessment by the United Nations relating to these factors and for long-term strategies by governments of the Central African Region and the United Nations to support stabilization and build resilience,
Silencing the Guns in Africa	<u>S/RES/2457</u> 27 February 2019	Noting that Africa still faces enormous challenges, including: governance deficits, economic difficulties, high rates of unemployment, the mismanagement of ethnic diversity, competition over power and resources, state fragility and weak state institutions, ungoverned spaces which leave room for illegal activities, the continued flow of weapons into the continnent and their illicit circulation, mercenary activity, insurgencies and rebellions, inadequate border monitoring and control that facilitates transnational organized crime, illicit exploitation of natural resources, continued crisis that precipitate irregular migration, corruption, illicit financial flows which facilitate funding for illegal activities, climate change and natural disasters, and slow processes in the ratification of AU instruments and policies,
		Recognises the adverse effects of climate change, ecological changes and natural disasters, among other factors, on the stability of a number of AU Member States, including through drought, desertification, land degradation and food insecurity, and emphasizes the need for adequate risk assessment and risk management strategies by the respective governments and the United Nations relating to these factors;
JNSOM	<u>S/RES/2461</u>	Recognising the adverse effects of climate change, ecological changes, natural disasters among
(Somalia)	27 March 2019	other factors on the stability of Somalia, including through drought, desertification, land degradation and food insecurity, and emphasising the need for adequate risk assessments and risk management strategies by governments and the United Nations relating to these factors, and recalling its Presidential statement S/PRST/2011/15,
		Requests the United Nations and the Federal Government of Somalia and the Federal Member States to consider the adverse implications of climate change, other ecological changes and natural disasters, among other factors, in their programmes in Somalia, including by undertaking risk assessments and risk management strategies relating to these factors and further requests the Secretary General to provide information of such assessments in mandated reporting as appropriate;

	7 August 2019	nature and invites the Secretary General to present to the Council its recommendations as well as his observations on these recommendations, including on potential areas of improvement or new or refocused priorities, including on Counter Terrorism, effects of climate change on security, intercommunal violence as part of a broad prevention and sustaining peace agenda, and present these by 15 November 2019, in order to usefully inform the Council's discussions on the renewal of the Mission's mandate which will expire on 31 December 2019.
		The Security Council welcomes the study concluded by UNOWAS on conflicts between pastoralists and farmers in the region, which concludes that tensions are being driven by competition for natural resources, rapid population growth, weak governance, pressures related to climate and ecological factors, and the circulation of small arms and light weapons. It encourages ECOWAS and its Member States, with the support of UNOWAS, to address these challenges in a coordinated and holistic manner. The Security Council further expresses its deep concern about the intensification of intercommunal violence in Central Mali and Burkina Faso, and reiterates that stabilisation of the situation and protection of civilians in this region requires a fully integrated response, led by the governments of those countries, with the support of UNOWAS and the international community, and encompassing simultaneous pursuit of progress on security, governance, humanitarian assistance and development, reconciliation, as well as protection and promotion of human rights.
		The Security Council recognises the adverse effects of climate change, ecological changes and natural disasters, including through drought, desertification, land degradation and food insecurity among other factors on the stability of West Africa and the Sahel region and continues to stress the need for long-term strategies, based on risk assessments, by governments and the United Nations, to support stabilisation and build resilience and encourages UNOWAS to continue to integrate this information in its activities.

/lali)	29 June 2022	Transition Government of Mali and the United Nations, of ecological changes, natural disasters, drought, desertification, land degradation, food insecurity, energy access, climate change, among other factors, on the security and stability of Mali,
		Underscores that the sustainability of peace and security support is improved by the implementation of the United Nations Department of Operational Support's Environment Strategy (phase II), which emphasizes good stewardship of resources and a positive legacy of the mission, and identifies the goal of expanded renewable energy use in missions to enhance safety and security, save costs, offer efficiencies and benefit the mission;
emocratic Republic of the Congo	S/RES/2641	Expressing concern at the continued presence of domestic and foreign armed groups in eastern DRC and the suffering they impose on the civilian population of the country, including from human
	30 June 2022	rights abuses, and at reported links between the ADF and terrorist networks, which may further exacerbate conflicts and contribute to undermining State authority, further expressing concern at the continued illegal exploitation and trade of natural resources, which enable these armed groups to operate, welcoming the diplomatic engagement undertaken by the States of the region to foster peace and reconciliation in the region, including the Conclaves of the East African Community Heads of State on the peace and security situation on the eastern part of the DRC in Nairobi, Kenya, acknowledging the outcomes of the Conclaves and the commitments to contribute to reconciliation, stabilisation and securing lasting peace in the DRC, and calling on all signatory States to fully implement their commitments per the Peace and Security Framework for the DRC and the Region,
BINUH	<u>S/RES/2645</u>	Emphasising the need to address the loss of livelihoods, food security and nutrition, health security, displacement of residents, and access to social infrastructure, including that caused by
Haiti)	15 July 2022	the earthquake that struck Haiti on 14 August 2021 and the passage of Tropical Storm Grace on 16 August 2021, and further emphasising that progress in the recovery, reconstruction, and resilience- building of Haiti is crucial to achieving lasting stability, security and socio-conomic development, and in this regard acknowledging the multiagency collaboration to this end,
JNFYCIP	<u>S/RES/2646</u>	Urging the sides to step up their efforts to promote intercommunal contacts, intra-island trade, reconciliation and the active engagement of civil society, in particular women and youth, and
Cyprus)	28 July 2022	recognising that regular, ffective engagement of cover society, in particular women and youth, and prospects for settlement and is in the interests of all Cypriots, and helps to address island-wide matters, including health, crime, environmental protection, economic issues, issues related to the adverse impacts of climate change, and challenges related to migration,

ISSUE	OUTCOME	LANGUAGE
Peace and security in Africa	<u>S/PRST/2022/6</u> 31 August 2022	The Security Council recognises that Africa is one of the regions that contribute the least to climate change, yet is extremely vulnerable and exposed to the adverse effects of climate change, extreme weather patterns, manifesting as floods, droughts, heatwaves, forest fires, storms, cyclones, and slow-onset events such as the rise of sea levels and, changing and unpredictable rainfall patterns, as well as their impacts on food security, among other factors, on the stability of a number of African States, calls upon the international community, including developed countries, to continue to support Africa to address its adaptation needs through, inter alia, the development, voluntary transfer and deployment of technology on mutually agreed terms, capacity-building including on renewables-based energy transition, and energy efficiency and the provision and mobilization of adequate and predictable resources, in line with existing commitments and equally accessible for all, and further calls on the international community and United Nations to support regional and subregional dialogues, initiatives and cooperation on developing comprehensive risk assessments to take meaningful actions to adapt to or mitigate challenges posed by climate change and environment degradation, including as peacebuilding efforts.
UNSOM	<u>S/RES/2657</u>	Highlighting the importance of FGS and FMS coordination with OCHA to ensure a needs-based
(Somalia)	31 October 2022	distribution of humanitarian aid, including in-kind food aid, and appropriate targeting of marginalised groups, which may face specific barriers in accessing assistance and protection, in support of the UN Famine Prevention Plan, and collaboration with the UN to develop an inter-ministerial strategy for enabling proper adaptation, reducing the risks and mitigating the impacts of climate change in Somalia.
		Recognising the adverse effects of climate change, environmental degradation, other ecological changes, natural disasters, among other factors on the stability of Somalia, including through floods, drought, desertification, land degradation and food insecurity and recalling its Presidential Statement S/PRST/2011/15, the United Nations Framework Convention on Climate Change and the Paris Agreement.
		Highlights the importance of the United Nations, the FGS and FMS considering the adverse implications of climate change, environmental degradation, other ecological changes and natural disasters, among other factors, in their programmes in Somalia, including by undertaking comprehensive risk assessments and risk management strategies relating to these factors, acknowledging the United Nations Framework Convention on Climate Change and the Paris Agreement.
MINUSCA	<u>S/RES/2659</u>	Recognising the adverse effects of climate change, ecological changes and natural disasters, among
(CAR)	14 November 2022	other factors, on the stability of the Central African region, including through drought, desertification, land degradation, food insecurity, and energy access, and stressing the need for comprehensive risk assessment by the United Nations relating to these factors and for long-term strategies by governments of the Central African region and the United Nations to support stabilisation and build resilience.
MONUSCO	<u>S/RES/2666</u>	Recognising the adverse effects of climate change, ecological changes, natural disasters, and lack
(DRC)	20 December 2022	of energy access, among other factors, on the stability of the DRC, welcoming the leadership of the DRC in the development of national strategies to address these issues and in the preservation of the Congo basin forest, expressing concern regarding the activities of armed groups in protected areas that lead to environmental damage and acknowledging the United Nations Framework Convention on Climate Change and the Paris Agreement.
UNFICYP	S/RES/2674_	Urging the sides to step up their efforts to promote intercommunal contacts, intra-island trade, reconciliation and the active engagement of civil society, in particular women and youth, recognising
(Cyprus)	30 January 2023	that regular, effective contact and communication between the sides enhances the prospects for settlement and is in the interests of all Cypriots, and helps to address island-wide matters, including health, crime, environmental protection, economic issues, issues related to the adverse impacts of climate change, and challenges related to migration, welcoming efforts to remove obstacles to intra- island trade and urging both sides to strengthen such efforts,
		Notes the United Nations Department of Operational Support's Environment Strategy (phase II), which emphasises good stewardship of resources and a positive legacy of the mission, and identifies the goal of expanded renewable energy use in missions to enhance safety and security, save costs, offer efficiencies and benefit the mission;

ISSUE	OUTCOME	LANGUAGE
	<u>S/RES/2677</u> 15 March 2023	Recognising the adverse effects of climate change, ecological changes, land degradation, food insecurity, and natural disasters, among other factors, on the humanitarian situation and stability in South Sudan, calling on the government to engage with local communities to address these challenges, and emphasizing the need for comprehensive risk assessments and risk management strategies by the GoSS and the United Nations to inform programs relating to these factors, and acknowledging the United Nations Framework Convention on Climate Change and the Paris Agreement,
		Decides that UNMISS shall have the following mandate, authorizes UNMISS to use all necessary means to implement its mandate, requests the Secretary-General to inform the Security Council of any obstacles to the implementation of the mandate, and stresses that the protection of civilians shall be given priority in decisions about the use of available capacity and resources; ()
		Creating the conditions conducive to the delivery of humanitarian assistance: ()
		To contribute, in close coordination with humanitarian actors, to the creation of security conditions conducive to the delivery of humanitarian assistance, so as to allow, in accordance with international law, including applicable international humanitarian law, all humanitarian personnel full, safe and unhindered access to all those in need in South Sudan and timely delivery of humanitarian assistance, including IDPs and refugees, consistent with United Nations guiding principles of humanitarian assistance, including humanity, impartiality, neutrality, and independence, including by providing gender-sensitive risk assessments on the adverse effects of climate change;
		Requests the Secretary-General to report to the Security Council on implementation of the UNMISS mandate and the obstructions UNMISS encounters in doing so in a comprehensive written report to be submitted within 90 days of the date of adoption of this resolution, every 90 days thereafter, and underscores that such reporting should provide integrated, evidence-based and data-driven analysis, strategic assessments and frank advice to the Security Council and should include attention to: ()
		Analysis of risks associated with climate change that may adversely impact peace and security in South Sudan, and implementation of the UNMISS mandate,
UNAMA	<u>S/RES/2678</u>	Decides to extend until 17 March 2024 the mandate of UNAMA, as defined in resolution 2626 (2022)
(Afghanistan)	16 March 2023	Decides further that UNAMA and the Special Representative of the Secretary-General will continue to carry out their mandate in close consultations with all relevant Afghan political actors and stakeholders, including relevant authorities as needed, in support of the people of Afghanistan in a manner consistent with Afghan sovereignty, leadership and ownership, with a particular focus on the priorities laid out below:
		Promote responsible governance and the rule of law, including transitional justice, monitor and report on political, security, social and economic developments, including the adverse impacts of the drought, provide assistance as appropriate to the Analytical Support and Sanctions Monitoring Team established pursuant to paragraph 7 of resolution 1526 (2004), monitor and analyse security dynamics across the country, perform analysis relating to political economy, including a better understanding of the illicit economy, provide comprehensive analysis and liaise with all relevant Afghan political actors, civil society representatives and other stakeholders to promote political inclusion and broad participation in the conduct of public affairs, and analyse and report on developments relating to the rule of law;

ISSUE	OUTCOME	LANGUAGE
UNAMI (Iraq)	<u>S/RES/2682</u> 30 May 2023	Encouraging the recently formed government to deliver on reforms, aimed at meeting the Iraqi peoples legitimate aspirations, to address corruption, respect and protect the human rights of all individuals in Iraq, promote accountability for human rights violations and abuses, deliver essential services, diversify the
		economy, create jobs, improve governance, combat climate change and environmental and water-related challenges, and strengthen viable and responsive state institutions, including the security sector,
		Recognising that the adverse effects of climate change, ecological changes, and natural disasters, among other factors, can contribute to desertification and drought, sand and dust storms, adversely impact food security, water scarcity, livelihoods, and the humanitarian situation, and aggravate any existing instability, emphasizing the need for comprehensive risk assessments by the Government of Iraq with the support of the United Nations, upon the request of the Government of Iraq, to take meaningful actions to adapt to or mitigate challenges posed by climate change and ecological change, acknowledging the United Nations Framework Convention on Climate Change and the Paris Agreement, and welcoming the Government of Iraq's efforts to
		that effect, in particular noting the Government of Iraq's accession to the UN Water Convention and the Iraq Climate Conference as well as the third Baghdad International Water Conference in 2023
		The Government of Iraq on facilitating regional dialogue and cooperation, including on issues of border security, clearance of landmines, improvised explosive devices and explosive remnants of war, energy, trade, environment, water, adverse impacts of climate change in particular those contributing to desertification and drought, resilience building, infrastructure, public health, and refugees;
		Requests that the Secretary-General, in line with best practices, conduct and provide the Security Council, no later than 31 March 2024, with an independent strategic review of UNAMI, in consultation with the Government of Iraq, in addition to UN agencies, member States, regional organisations, independent experts and civil society, and the Government of Kuwait, consistent with paragraph 4 of resolution 2107 (2013), including:
		Further assessing the options to support the Government of Iraq in strengthening effective regional cooperation on issues outlined in paragraph 2(b)(iv);
ATMIS (Somelie)	<u>S/RES/2687</u>	Emphasising the need for adequate risk assessment and risk management strategies by the Government of Somalia and the United Nations, of climate change, other ecological changes, natural disasters and other forture on the stability of Samalia
(Somalia)	27 June 2023	factors on the stability of Somalia.
BINUH	S/RES/2692	Recognising that natural disasters, including hurricanes, earthquakes and floods, and other weather events associated with the adverse effects of climate change, among other factors, can adversely impact food
(Haiti)	14 July 2023	security, water scarcity and the humanitarian situation in Haiti, and may aggravate any existing instability,
Conflict and Hunger	<u>S/PRST/2023/4</u> 3 August 2023	The Security Council recognizes that climate change, environmental degradation, ecological changes and natural disasters, among other factors, can adversely impact food security, water scarcity, livelihoods and the humanitarian situation, including through drought, desertification, and land degradation, while acknowledging the importance of implementing the UNFCCC* and the Paris
	C C	Agreement ⁺ , and continues to stress the need for long-term strategies, based on comprehensive risk assessments by governments and the United Nations, to support stabilization and build resilience.
		The Security Council recognizes that – on top of armed conflicts – economic downturns, gender inequalities, biodiversity loss, drought and the adverse effects of climate change, including more frequent and extreme weather events, are among the key factors contributing to a reversal in the long-term progress in fighting global hunger and all forms of malnutrition by 2030 more difficult.
UNIFIL	<u>S/RES/2695</u>	Underscores that the sustainability of peace and security supports is improved by the implementation of the United Nations Department of Operational Support's Environment Strategy
(Lebanon)	31 August 2023	(Phase II), which emphasizes good stewardship of resources and a positive legacy of the mission, and identifies the goal of expanded renewable energy use in missions to enhance safety and security, save costs, offer efficiencies and benefit the mission;
Haiti	<u>S/RES/2699</u> 2 October 2023	Requests Member States participating in the Multinational Security Support mission in Haiti to adopt appropriate wastewater management and other environmental controls to guard against the introduction and spread of water-borne diseases, in accordance with The World Health Organization
		Water Quality: Guidelines, Standards, and Health publication on Assessment of Risk and Risk Management for Water-related infectious diseases from 2001, and in cooperation with Haitian authorities, which bear shared responsibility for guarding against water-borne disease

ISSUE	OUTCOME	LANGUAGE
Somalia	S/RES/2705 31 October 2023	Commending the FGS' development of its National Adaption Plan Framework, recognising the adverse effects of climate change, environmental degradation, other ecological changes, and natural disasters, among other factors on the humanitarian situation and stability of Somalia, including through floods, drought, desertification, food insecurity, and land degradation, and recalling its Presidential Statement S/PRST/2011/15.
		Advance the 2030 Agenda for Sustainable Development, working closely with the United Nations Country Team, provide strategic advice to institutional capacity building in line with the Somalia National Development Plan and the United Nations Sustainable Development Cooperation Framework, collaborate with the international financial institutions to support the mobilisation of economic and development assistance, and ensure effective and integrated cooperation of United Nations agencies, funds and programmes and promote cooperation with relevant S/RES/2705 (2023) 4/7 23-21113 partners, with a view to making maximum use of development financing in Somalia, including in response to climate change, flooding, drought, and locusts.
		Highlights the importance of the United Nations, and the FGS and FMS considering the adverse implications of climate change, environmental degradation, other ecological changes and natural disasters, among other factors, in their programmes in Somalia, including by undertaking comprehensive, gender-sensitive risk assessments and risk management strategies relating to these factors, acknowledging the United Nations Framework Convention on Climate Change and the Paris Agreement
Central African Republic	<u>S/RES/2709</u> 15 November 2023	Recognising the adverse effects of climate change, ecological changes and natural disasters, among other factors, on the stability of the Central African region, including through drought, desertification, land degradation, food insecurity, and energy access, and stressing the need for comprehensive risk assessment by the United Nations relating to these factors and for long-term strategies by governments of the Central African region and the United Nations to support stabilisation and build resilience
Threats to International Peace and Security	<u>S/PRST/2023/6</u> 7 December 2023	The Security Council expresses concern with the serious and growing threats posed by transnational organized crime and acknowledges that in specific contexts and regions terrorists may benefit from organized crime, whether domestic or transnational such as the trafficking in arms, drugs, cultural property and trafficking in persons, as well as the illicit trade in natural resources including gold and other precious metals and stones, minerals, charcoal and oil, timber, illicit trafficking in wildlife and other crimes that affect the environment.
Democratic Republic of the Congo	S/RES/2717 19 December 2023	Recognising the adverse effects of climate change, ecological changes, natural disasters, and lack of energy access, among other factors, on the stability of the DRC, noting the importance of considering these effects, among other factors, on relevant programmes in the country, welcoming the leadership of the DRC in the development of national strategies to address these issues and in the preservation of the Congo basin forest, expressing concern regarding the activities of armed groups in protected areas that lead to environmental damage and acknowledging the United Nations Framework Convention on Climate Change and the Paris Agreement
		Condemns the continued illegal exploitation and trafficking of natural resources, particularly so-called "conflict minerals" like tin, tantalum, tungsten, gold, diamonds, cobalt, and coltan, as well as cocoa, charcoal, timber, and wildlife, by armed groups and criminal networks supporting them, the negative impact of armed conflict on protected natural areas, which undermines lasting peace and development for the DRC, condemns the presence and destructive activities of armed groups in the protected natural areas in the DRC which undermine efforts to ensure the protection of forests, the biosphere and the environment as a whole and encourages the Government of the DRC to strengthen efforts to safeguard those areas
Cyprus	<u>S/RES/2723</u>	Urging the sides to step up their efforts to promote intercommunal contacts, intra-island trade,
	30 January 2024	reconciliation and the active engagement of civil society, in particular women and youth, recognising that regular, effective contact and communication between the sides enhances the prospects for settlement and is in the interests of all Cypriots, and helps to address island-wide matters, including health, crime, environmental protection, economic issues, issues related to the adverse impacts of climate change, and challenges related to migration, welcoming efforts to remove obstacles to intra- island trade and urging both sides to strengthen such efforts,
		Notes the United Nations Department of Operational Support's Environment Strategy (phase II), which emphasises good stewardship of resources and a positive legacy of the mission, and identifies the goal of expanded renewable energy use in missions to enhance safety and security, save costs, offer efficiencies and benefit the mission;

ISSUE	OUTCOME	LANGUAGE
Peace Consolidation in West Africa	<u>S/PRST/2024/3</u> 24 May 2024	The Security Council recognises the adverse effects of climate change, ecological changes and natural disasters, including through floods, drought, desertification, and land degradation, as well as their exacerbating effects on food security and on other humanitarian, social and economic challenges, which impact the security and stability of West Africa and the Sahel region. The Security Council continues to stress the need for long-term strategies, based on comprehensive risk assessments by governments and the United Nations, to support stabilisation and build resilience, and encourages UNOWAS within its current resources, to continue to integrate this information, as appropriate, in its activities. The Security Council takes note of efforts to develop region-specific approaches and initiatives towards comprehensive risk assessments, climate adaptation, mitigation and resilience in West Africa and the Sahel, and encourages UNOWAS' continued advocacy for efforts, within its current mandate and resources, to scale up international action and support, through inter alia, humanitarian and development action, the development, voluntary transfer and deployment of technology on mutually agreed terms, resource mobilisation and capacity-building, including on renewables-based energy transition, and energy efficiency in line with existing commitments to enhance the adaptive capacity of countries from the region and to reduce their vulnerability to climate change. The Security Council stresses the particular relevance of the above elements to the specific situation in West Africa and the Sahel region. The Security Council acknowledges the United Nations Framework Convention on Climate Change and the Paris Agreement as the primary international, intergovernmental forums for negotiating the global response to climate change.
		The Security Council expresses serious concern at the deterioration of the humanitarian situation in some parts of the region, caused by armed conflicts and exacerbated by violations of international humanitarian law, climate change, and development, social and economic challenges which are characterised by increasing forced displacement, extreme poverty, food insecurity, water scarcity, water quality issues, floods, droughts, desertification and land degradation that is particularly severe in the Sahel and Lake Chad Basin, social inequalities and violence, including sexual and gender-based violence and reaffirms the need to ensure access to education and healthcare. The Security Council calls for the full, safe, rapid and unhindered access for the delivery of humanitarian and medical aid to all persons in need, including timely access to sexual and reproductive healthcare, mental health and psychosocial services for survivors of sexual violence in conflict and post-conflict situations without any discrimination.
UNAMI (Iraq)	<u>S/RES/2732</u> 31 May 2024	Supporting the Government of Iraq as it continues to deliver on reforms, aimed at meeting the Iraqi people's legitimate aspirations, to address corruption, respect and protect the human rights of all individuals in Iraq, promote accountability for human rights violations and abuses, deliver essential services, diversify the economy, create jobs, improve governance, combat climate change and environmental and water-related challenges, and strengthen viable and responsive state institutions, including the security sector,
		Welcoming the Government of Iraq's efforts to address the adverse effects of climate change and natural disasters,
BINUH	<u>S/RES/2743</u>	
(Haiti)	12 July 2024	Recognizing that natural disasters, including hurricanes, earthquakes and floods, and other weather events associated with the adverse effects of climate change, among other factors, can adversely impact food security, water scarcity and the humanitarian situation in Haiti, and may aggravate any existing instability, and expressing concern that gang violence and other criminal activities, among other factors, might hinder disaster risk reduction, preparedness and resilience-building measures aimed at addressing these events,
